Part B) Staff recommends that PlanDSM: Creating Our Tomorrow Comprehensive Plan be amended to revise the future land use designation from Low Density Residential within a Community Node to High Density Residential within a Community Node.

Part C) Staff recommends approval of the request to rezone the property from “N5” Neighborhood District to “NX2” Neighborhood Mix District, subject to the following conditions:

1. Any use of the Property for a multiple-household residential use shall be limited to no more than seven (7) dwelling units.
2. Vehicular access to the Property for a multiple-household residential use shall only be allowed from the alleyway to the east.
3. Any use of the Property for a multiple-household residential use shall be in accordance with a Site Plan approved pursuant to all applicable standards of Des Moines Municipal Code Chapter 135.

STAFF REPORT TO THE PLANNING COMMISSION

I. GENERAL INFORMATION

1. **Purpose of Request:** The applicant is proposing to amend the land use plan and rezone the subject property to “NX2” District in order to allow use of the property for a multiple-household use with up to seven (7) dwelling units. The existing structure previously contained 7 dwelling units but has lost non-conforming rights since it has been vacant for a period longer than 6 months. The building has been in disrepair and has been determined to be a public nuisance. The applicant is proposing interior renovations to the existing apartment building. The building is a historic structure built in the year 1906.

Any future construction or redevelopment of the subject properties must comply with all applicable site plan and design regulations contained in the Planning and Design Ordinance (Chapter 135 of City Code).

2. **Size of Site:** 0.19 acres (8,225.4 square feet).
3. **Existing Zoning (site):** “N5” Neighborhood District.
4. **Existing Land Use (site):** The site currently houses a vacant structure that previously functioned as a multiple-household use with seven (7) dwelling units.
5. **Adjacent Land Use and Zoning:**
 - North* – “N5”; Use is a one family residential dwelling unit.
 - South* – ‘N5”; Uses are vacant parcels.
 - East* – “N5”; Uses are one household residential dwelling units.
 - West* – “N5”; Uses are two-family dwelling unit.
6. **General Neighborhood/Area Land Uses:** The subject property is at the northeast corner of intersection of 5th Avenue and Orchard Avenue. The surrounding area includes a mix of single-household, duplex, and multiple-household uses. It is in a block east of the 6th Avenue corridor and located within a designated future Community Node.
7. **Applicable Recognized Neighborhood(s):** The subject property is located in the River Bend Neighborhood Association. All neighborhood associations were notified of the April 18, 2024, public hearing by emailing of the Preliminary Agenda on March 29, 2024, and the Final Agenda on April 12, 2024. Additionally, separate notifications of the hearing for this specific item were mailed on March 29, 2024 (20 days prior to the public hearing) and April 8, 2024 (10 days prior to the public hearing) to the River Bend Neighborhood Association and to the primary titleholder on file with the Polk County Assessor for each property within 250 feet of the site.

All agendas and notices are mailed to the primary contact(s) designated by the recognized neighborhood association to the City of Des Moines Neighborhood

Development Division on the date of the mailing. The River Bend Neighborhood mailings were sent to Kathy Hellstern, 803 Hickman Road, Des Moines, IA 50314.

The applicant will provide a summary of the neighborhood meeting at the public hearing.

8. **Relevant Zoning History:** The subject property previously contained a legal non-conforming use with 7 dwelling units in the “N5” District. As a result of being vacant for a period longer than 6 months, the property has lost the legal non-conforming status and does not conform to what is allowed in the zoning district.
9. **PlanDSM: Creating Our Tomorrow Plan Land Use Plan Designation:** The property is designated as Low Density Residential within a Community Node.
10. **Applicable Regulations:** Taking into consideration the criteria set forth in Chapter 18B of the Iowa Code, the Commission reviews all proposals to amend zoning boundaries or regulations within the City of Des Moines. Such amendments must be in conformance with the comprehensive plan for the City and designed to meet the criteria in 414.3 of the Iowa Code. The Commission may make recommendations to the City Council on conditions to be made in addition to the existing regulations so long as the subject property owner agrees to them in writing. The recommendation of the Commission will be forwarded to the City Council.

II. ADDITIONAL APPLICABLE INFORMATION

1. **PlanDSM: Creating Our Tomorrow:** The applicant is requesting that the future land use designation for the property be amended from “Low Density Residential within a Community Node” to “High Density Residential within a Community Node”. Plan DSM describes these designations as follows:

Low Density Residential: Areas developed with primarily single-family and two-family residential units with up to 6 dwelling units per net acre.

High Density Residential: Areas developed with primarily higher intensity multi-family housing with a minimum density over 17 dwelling units per net acre.

Community Node: Mid-sized centers providing a range of daily needs and specialized services within a larger neighborhood context. Consist of a mix of housing, retail and offices serving a larger population and geographical area than a neighborhood node. May include a shopping district including a grocery and drug store. Residential development including medium and high densities may occur.

The subject parcel is currently zoned “N5” District. The Zoning Ordinance describes this district as, “intended to preserve the scale and character of neighborhoods developed with a mix of bungalow and two-story houses, predominantly in the Victorian, Revival, and Arts and Crafts styles pursuant to House D building type in section 135-2.16 of this code.”

The applicant is proposing to rezone the parcel to the “NX2” District. The Zoning Ordinance describes this district as, “intended for a mix of single-household houses with appropriately scaled and detailed multiple-household building types in the same neighborhood.

Staff believes that the proposed High Density Residential designation is appropriate for this site since this multiple household building is an existing historic structure that was built and designed to accommodate such a use. Staff is supportive of revising the future landuse designation to High Density Residential and to rezone the property to “NX2” Neighborhood Mix District so long as the applicant complies with conditions of approval outlined in Section III of the Staff Report.

Staff believes that a maximum of seven (7) dwelling units within this property and the existing Flat building type would fit the character of this area and would not be detrimental to the health, safety and well-being of those residing in the building within the subject property and those in the surrounding neighborhood so long as the applicant complies with the conditions of approval. The subject property is within a designated future Community Node and within close proximity to the 6th Avenue mixed use corridor and a future Neighborhood Node.

- 2. Building Code Requirements:** This structure has been determined to be a public nuisance. Permits are required for repairs, but permits will not stay any legal action. This building may require protection by an automatic sprinkler system in accordance with Chapter 9 of the International Building Code and Des Moines Municipal Code Chapters 26 and 46.

Building and site work must comply with accessibility requirements of the ANSI A117.1 standard for accessibility, International Building Code and International Existing Building Code. These codes require accessible parking, an accessible route from accessible parking to an accessible entrance, accessible means of egress, and accessible routes throughout the building.

- 3. Planning and Design Ordinance Requirements:** Any development must comply with all applicable site plan and design regulations of the City’s Planning and Design Ordinance. Should the rezoning be approved, the applicant would be required to prepare a Site Plan and building elevations for review before the property can be occupied by the proposed use. This Site Plan will ensure that all requirements, including those pertaining to off-street parking, landscaping, screening, and stormwater management, are satisfied. If the property is rezoned to the requested “NX2” District, the Site Plan would likely be reviewed against a “Flat” Building Type.

Should the requested rezoning be denied, the existing “N5” Neighborhood District zoning regulations would allow for a one-family dwelling unit only long as the site complies with all applicable site plan and design regulations of the City’s Planning and Design Ordinance.

SUMMARY OF DISCUSSION

Leah Rudolphi asked if any member of the public or commission desired to speak on the item. No one requested to speak.

COMMISSION ACTION

Emily Webb made a motion for the following:

Part A) Approval that requested "NX2" District be found not in conformance with the existing PlanDSM future land use designation of Low Density Residential within a Community Node.

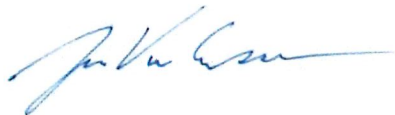

Part B) Approval that PlanDSM: Creating Our Tomorrow Comprehensive Plan be amended to revise the future land use designation from Low Density Residential within a Community Node to High Density Residential within a Community Node.

Part C) Approval of the request to rezone the property from "N5" Neighborhood District to "NX2" Neighborhood Mix District, subject to the following conditions:

1. Any use of the Property for a multiple-household residential use shall be limited to no more than seven (7) dwelling units.
2. Vehicular access to the Property for a multiple-household residential use shall only be allowed from the alleyway to the east.
3. Any use of the Property for a multiple-household residential use shall be in accordance with a Site Plan approved pursuant to all applicable standards of Des Moines Municipal Code Chapter 135.

Dear Planning Staff,

On Tuesday, April 2nd, 2024, we held a neighborhood meeting at 1427 5th in relation to the zoning change to from the single family to multifamily, as the existing property is currently multifamily and non-conforming.

We provided mailers to all names on the mailing list provided by the City; 5 neighbors showed up to the meeting. Jasmine Brooks represented us to explain our intent: no physical changes to exterior, unit count, or the existing use – renovations only which is triggering this zoning requirement.

The attendees were:

- Kim El-Baroudi
- Mike Hildebrand
- Loulou Dickey
- Kathy Hellstern (President River Bend Association)
- Breann Bye

After explaining our project, and that there would be no changes to what is there now, the neighbors had no further concerns. Overall, they appear to support the project as it is part of their overall vision for the River Bend Community.

Thank you,

Thomas Kuhn
Property Owner
