

OFFICE OF THE CITY MANAGER  
DES MOINES, IOWA

**CITY COUNCIL COMMUNICATION 96-465**  
**OCTOBER 28, 1996 AGENDA**

SUBJECT:	TYPE:	SUBMITTED BY:
1995-96 CIP AUTHORIZATION TO PROCEED ON VARIOUS PROJECTS	◆ RESOLUTION ORDINANCE RECEIVE/FILE	HAROLD E. SMITH CITY ENGINEER

**SYNOPSIS —**

Council authorization to proceed is requested for the following projects:

1. Central Place Pump Stations Discharge Repairs
2. Waterbury Road and 60th Place Drainage Improvements
3. E. 15th Street and Scott Avenue Storm Pump Station Alternate Power
4. SW 28th Street and Wolcott Avenue Subdrain

**FISCAL IMPACT —**

Total cost for the four projects is \$230,000. Funding for these projects is included in the adopted 1996-97 CIP.

**RECOMMENDATION —**

Authorize the City Manager to proceed with the projects as outlined herein.

**BACKGROUND —**

On October 21, 1996, by Roll Call No. 96-3597, the City Council adopted the 1996-97/2001-2002 CIP. I hereby request Council authorization to proceed with these Capital Improvements Projects.

1. Central Place Pump Stations Discharge Repairs - Citywide Stormwater Utility Projects - Page 276 in the adopted CIP - \$50,000 estimated project cost.

These stormwater pump stations operated during the Flood of '93, and were observed to leak from the discharge pipes. This project would repair these leaks and preserve the integrity of the levees.

2. Waterbury Road and 60th Place Drainage Improvements - Citywide Stormwater Utility Projects - Page 276 in the adopted CIP - \$60,000 estimated project cost.

This project will alleviate a localized flooding complaint by improving the drainageway in the area.

3. E. 15th Street and Scott Avenue Pump Station Alternate Power - Citywide Stormwater Utility Projects - Page 276 in the adopted CIP - \$85,000 estimated project cost.

This project provides a backup power supply to ensure the reliability of service of this station.

4. SW 28th Street and Wolcott Avenue Subdrain - Stormwater Utility Emergency Repairs - Page 286 in the adopted CIP - \$35,000 estimated project cost.

This project will alleviate a drainage problem which is causing inconvenience to the residences and street deterioration.
