

## **Council Communication No. 97-303**

### **SYNOPSIS –**

This agreement provides for professional engineering services for the construction phase of the Easter Lake Retention Basins - Phase I Project.

### **FISCAL IMPACT –**

Funds for this agreement are provided for in the 1997-98 CIP, page 258. Compensation to the consultant will be a total of \$97,218. This project is funded by the Stormwater Utility.

### **RECOMMENDATION –**

**Approval of the agreement with Snyder and Associates, Inc.**

### **BACKGROUND –**

The Easter Lake Retention Basins - Phase I Project is the initial project implementing the recommendations of the Southeast Annex Area Comprehensive Stormwater Study and Master Plan (July 1994). This Master Plan recommended various stormwater retention, siltation and erosion control structures be constructed to provide adequate stormwater management in the area. The Easter Lake Retention Basins —Phase I Project will construct four of the first priority basins recommended in the Master Plan. This agreement will provide the construction phase services for the construction of the basins.
