**SUBMITTED BY:**  
HAROLD SMITH  
CITY ENGINEER

**RECOMMENDATION –**

**Approval.**

**BACKGROUND –**

On August 5, 1996, by Roll Call No. 96-2710, the City Council authorized the Mayor to sign an agreement with the engineering firm of Veenstra & Kimm, Inc. to provide professional engineering work necessary to design the sewer facilities described as Phase 12, Segment 1 in the Western Area Facility Plan. The sewer design has been completed; however, during coordination meetings with the consultant on the Downtown Loop Bypass project and affected property owners, it is necessary to make a significant change in alignment. Amendment No. 2 will compensate the engineering firm of Veenstra & Kimm, Inc. for redesigning the sewer alignment and for incorporating the new Urban Standard Specifications for Public Improvements into the specifications for the project.
