BACKGROUND —

**JOHN BELLIZZI
PUBLIC WORKS
DIRECTOR**

Last fall's snowstorms and this summer's windstorms significantly delayed construction season activities. To complete the work previously scheduled for this construction season, bids were taken for the resurfacing of several streets.

Bid specifications for pavement resurfacing were advertised in the official publication section of the Des Moines Register, with one bid being received. The bid received from Des Moines Asphalt & Paving Company matched the engineer's estimate and also was identical to the bid from the same company this spring for the Public Work Department's annual program.

Specifications for this contract require that all work be completed this fall.
