The Park and Recreation Department operates and manages four Community Centers which provide cultural, recreational, and human services for the citizens of Des Moines. The majority of the population served is residents that meet the Federal Housing and Urban Development (HUD) guidelines for low- to moderate-income households.

The Community Services Division of the Community Development Department has leased office space in all four Community Centers in order to provide services to low- and moderate-income households. This renewal of the Space Allocation Agreement continues with the annual 3 percent increase from the previous resolutions adopted on December 4, 1995.
