TYPE:

RECOMMENDATION -

Approval.

RESOLUTION
ORDINANCE
RECEIVE/FILE

BACKGROUND -

SUBMITTED BY:

FLOYD BENTZ, P.E.
CITY ENGINEER

The City maintains a database which establishes the Stormwater Utility charge for each property. This information is supplied to the Des Moines Water Works for inclusion in the monthly bill sent to users. The format of the original Storm Water Utility billing system is a customized DBase/DOS application. This application is not consistent with the current software the Information Technology Department supports.

This agreement will allow for the reformatting of the database to operate through an Access Database. This application will then be consistent with other City applications and be compatible with the City's Graphic Information System (GIS).
