TYPE:

RESOLUTION
ORDINANCE
RECEIVE/FILE

RECOMMENDATION -

Approval.

SUBMITTED BY:

FLOYD BENTZ, P.E.
CITY ENGINEER

BACKGROUND -

The Easton Boulevard Detention Basin is a recommendation of the Seventh Ward Ditch Flood Control Study, which was approved by the City Council on January 6, 1997. During the flood control study, several meetings with the affected residents and the ACCENT Neighborhood, where the detention basin will be located, were held. A great deal of interest was expressed in the use and appearance of the basin site following construction. On October 4, 1999, by Roll Call No. 99-3074, the City Council approved a Professional Services Agreement with Snyder & Associates, Inc. to develop a conceptual design for the Easton Boulevard Detention Basin. One element of the conceptual design is the development of the Master Plan. A committee was formed to provide input on the desired elements and features to be included in the Master Plan. The committee included representatives from the ACCENT Neighborhood, Storm Water Utility, Traffic and Transportation, Park and Recreation, and Community

Development. The committee has been meeting for over a year and has approved the Master Plan drawing.
