## **BACKGROUND -**

On September 13, 1999, by Roll Call No. 99-2846, the City Council approved an RFP for consulting services to assist with the design, development, and implementation of needed public safety communications improvements.

On December 20, 1999, by Roll Call No. 99-3811, the City Council approved the selection of RCC Consultants, Inc. to provide these services.

The consultant completed the needs assessment for the computer aided dispatch system, records management system, radio consoles, radio system, and mobile data system. The report outlined the identified deficiencies, discussed alternative solutions, and made recommendations for needed improvements. The consultants recommendations in summary are:

- Replace the computerized dispatch and records systems
- Replace the radio consoles
- Replace the fire status system
- Voice radio systems remain UHF
- Obtain and share additional voice channels
- Improve voice radio coverage
- Simplify voice patching between agencies

On November 20, 2000, by Roll Call No. 00-4373, the City Council approved a contract with RCC Consultants, Inc. to develop RFP's for the stated communications improvements.
