<b>TYPE:</b>	
<b><u>RESOLUTION</u></b> ORDINANCE RECEIVE/FILE	<b>BACKGROUND -</b>
<b>SUBMITTED BY:</b>  FLOYD BENTZ, P.E. CITY ENGINEER	There is an existing storm sewer system in this area that has inadequate capacity resulting in water ponding in the street which eventually flows into house basements and ponds backyards. The proposed project will increase the capacity of the storm sewer system to alleviate these drainage problems. We anticipate the need for approximately three permanent stormwater easements, a permanent flowage easement, and several temporary easements for this project.
