BACKGROUND -

On August 31, 2000 by Roll Call 00-3634, the City Council approved a Predesign Agreement (Agreement No. 2001-P-028) with IDOT for Interstate 235, from the west city limits to the north city limits. IDOT has completed the design of the bridge relocation and reconstruction. The project name is the E. 6th Street and E. 9th Street Bridge

Relocation and Reconstruction, and the work includes the relocation and reconstruction of bridges and streets in the vicinity of the interchange and intersection with Interstate 235.

The E. 6th Street and E. 9th Street Bridge Relocation and Reconstruction Agreement has been negotiated with IDOT to identify the responsibilities of IDOT and the City regarding the administration, funding, and implementation of the project construction, as well as future maintenance responsibility of City facilities such as structures serving roadways. Construction is in April 2002, and IDOT is responsible for notification of all future closures. IDOT must approve this document before work may begin.
