Submitted by: William McCarthy, Chief of Police

SUBJECT—
Crimeview Web Add-on Component for Crime Analysis

SYNOPSIS—
The Police Department has already purchased the core Crimeview Product and Crimeview Web is an add-on component that will enable all police employees to access crime statistics, crime patterns and crime maps using the intranet.

FISCAL IMPACT—
The cost is $48, 357.50 reimbursed from a Critical Incident Protection Allocation grant.

RECOMMENDATION—
Approval

BACKGROUND—
The Police have been searching for a GIS based application that would use their new Records Management System and provide the ability to do in depth and spatial analysis, as well as create hotspot analysis, reports and quickly produce crime maps. The goal is to utilize this product to assist the Police in their quest to be able to be more efficient in manpower deployments,

concentrate on crime trends and patterns. The goal is to also make crime data more readily accessible to the public to give them the information as quickly and easily as possible.

By Roll Call 04-2059 City Council approved purchase of Crimeview software and Crimeview Community software.
