	Agenda Item No. 6 Roll Call No. <u>09-</u> Communication No. <u>09-719</u> Submitted by: Jeb E. Brewer, P.E. City Engineer	

AGENDA HEADING:

Authorization to Proceed on the 2009-10 Paving Program.

SYNOPSIS:

Recommend approval of the authorization to proceed on the 2009-10 Paving Program. The City Council has received petitions requesting the construction of permanent paving.

FISCAL IMPACT:

Amount: \$20,000 (preliminary work only)

Funding Source: 2009-10 CIP, Page Street-6, City-wide Paving Program, STR013, G.O. Bonds

ADDITIONAL INFORMATION:

On June 26, 2000, by Roll Call 00-1876, the City Council adopted a new policy for paving residential streets in an effort to pave the remaining 50 miles of unpaved streets. This new policy specifies that the majority of remaining unpaved streets will be paved by private contractors with permanent paving over an improved subbase. Public Works crews will continue to provide nonassessed residential maintenance paving (formerly known as “interim paving”) where road use, storm water conditions, and available funding are consistent with this reduced life surfacing. By past Council policy, interim pavement has been limited to construction of a maximum of 4” of hot mix asphalt over the existing street surface and does not include construction of curb and gutter or any storm sewer.

By Council policy, the permanent paving is assessed based upon 50% of the actual pavement costs, 50% of the driveway approach costs, and design and inspection costs limited to 10% of the total construction cost. This procedure, along with the existing assessment subsidy program, results in the residents typically paying approximately 25% of total project costs.

Currently, petitions for paving the following two streets have been submitted to Council:

- Druid Hill Drive – Bell Avenue to Casady Drive
- E. 35th Street/Arthur Avenue – Easton Boulevard to E. 34th Street

On September 14, 2009, by Roll Call 09-1692, the City Council received a petition signed by a significant majority of the property owners protesting the proposed sidewalks on Druid Hill Drive from Bell Avenue to Casady Drive. It is recommended that the paving proceed without construction of assessed sidewalks.

It is recommended the following procedure be used to establish the 2009-10 Paving Program:

1. Council authorization to proceed with preliminary work.
2. Informational Meeting. Each assessed property owner will receive a mailing from the City Engineer. The mailing will contain general information about the street paving procedure and each owner's estimated assessment, and will invite the property owner to an informational meeting with Engineering staff at which time the property owners have the opportunity to ask questions and provide input to staff on the design.
3. Preliminary survey would be completed, initial design work would begin, and preliminary cost estimates developed.
4. Resolution of Necessity. The Resolution of Necessity will be presented to Council for adoption after the informational meeting with property owners.

The policy of taking alternate bids for hot mix asphalt or Portland cement concrete will again be utilized for the non-arterial streets included in the program.
