ADDITIONAL INFORMATION:

Supplemental Agreement No. 2 includes the additional design services needed to design the pedestrian underpass and trail connections as part of the East Indianola Avenue Widening project. The pedestrian underpass and trail connections will be incorporated into the plans being prepared for Phase 2 of the project.

The current agreement with Snyder & Associates, Inc. includes design of East Indianola from SE 14th Street to Army Post Road. At the time this agreement was developed, funding had not been secured for the pedestrian underpass and trail connections. Last year the Des Moines Area Metropolitan Planning Organization approved \$200,000 of Surface Transportation Program Transportation Enhancement funding in Federal FY2013 for this trail. With the planned widening of East Indianola, adding the pedestrian underpass to the roadway project is the most efficient and cost effective way to get the work done.

As part of the East Indianola Avenue corridor consultant selection process in 2005, staff received proposals from seven engineering firms. A committee comprised of City staff from the Engineering Department, Parks Department, and Public Works Department reviewed these proposals and recommended that Snyder & Associates, Inc. be selected for this study. A major factor in

recommending Snyder & Associates, Inc. was their extensive past involvement in projects near or within this corridor.
