

Office of the City Manager

Date: April 11, 2011

Agenda Item No. 21

Roll Call No. <u>11-582-11-591</u>

Communication No. <u>11-225</u>

Submitted by: Scott Sanders, Finance

Director

AGENDA HEADING:

Electing classifications and procedures for proposed bond projects and setting the date of public hearings regarding the issuance of general obligation bonds for the FY 2011-12 Capital Improvement Budget (April 25, 2011).

SYNOPSIS:

Recommend approval of project classifications and to set the date of April 25, 2011, to hold nine public hearings regarding the issuance of general obligation bonds for the FY 2011-12 Capital Improvement Budget. This is the first step in the process to finance the construction of capital projects totaling \$37.43 million and the refinancing of the series 2005A bonds (refunded par amount of \$8,810,000).

FISCAL IMPACT:

<u>Amount:</u> \$47,820,000; made up of \$37,430,000 project costs, \$9,920,000 refunding and \$470,000 issuance expenses.

Funding Source: Fiscal Year 2011-12 Operating Budget:

- Property Tax Debt Service Levy Debt Service Fund DS001 FIN900100, Page 119.
- Tax Increment Fund Special Revenue Fund SP370 FIN909105, Page 120.

<u>Savings from Refinancing:</u> A net present value savings of at least \$400,000 is anticipated (4.6% savings). Approximately 24% of the savings (\$96,000) will accrue to tax increment and 76% (\$304,000) will accrue to the debt service levy. The term of the refunding is the same as the refunded bonds.

ADDITIONAL INFORMATION:

A public hearing must be held prior to any borrowing by the City. This action sets the date for the public hearing to consider bonding for the FY2011-12 Capital Improvement Budget that was approved by City Council on February 28, 2011. City staff is in the process of reviewing projects that anticipated the availability of non-city funding to determine the certainty of those funds. The final sizing of the bonds will not be established until staff presents to the City Council the status of non-city funding related to the projects that will be funded in part with bond proceeds from this issuance. Projects under this review are listed below with type of match involved:

Recreation Trails (Federal) Neighborhood Traffic Control (State) Signal Channelization (State) Traffic Signal Interconnect (Federal)
East Indianola Widening (Federal, State, DMWW)
Southeast Connector (Federal)

Since the adoption of the budget city staff has further reviewed general obligation funding needs and recommends the following adjustments which have been incorporated into the recommended council actions:

1. Energy Conservation Program - \$250,000 addition This is a local match requirement related to grant awards.

2. Municipal Service Center - \$12,500,000 reduction

This project is being phased and does not require the full allocation at this time. The scope and costs of the project have not changed. The reduction now will require a higher future bond issue in a like amount.

3. Miscellaneous Building Improvements - \$500,000 addition This amount will address the Central Library HVAC issues.

4. Mulberry Street Paving - \$75,000 addition

Actual bids are higher than the original estimates (unneeded bonding from other projects were moved to this project to help offset the higher bids).

5. Hazard Mitigation - \$1,240,000 addition

Local funding requirements may necessitate this higher amount for the 4-mile housing buy-out program.

Net Changes from CIP: \$10,435,000 reduction

Specific projects to be financed are detailed in a list at the end of this communication. Projects are summarized by category as follows:

CATEGORY	AMOUNT
• Fire Protection Improvements	\$ 7,655,000
