

 <p style="text-align: center;">Council Communication Office of the City Manager</p>	Date:	May 23, 2011
	Agenda Item No.	34
	Roll Call No.	<u>11-897</u>
	Communication No.	<u>11-326</u>
	Submitted by:	Richard A. Clark, City Manager

AGENDA HEADING:

Approving Memorandum of Agreement regarding the STAR Beta Communities with ICLEI -Local Governments for Sustainability.

SYNOPSIS:

ICLEI has selected the City of Des Moines as one of 10 Beta Communities in the STAR Beta Communities pilot program. Other Beta Communities include: Atlanta, GA, Austin, TX, Boulder, CO, Chattanooga, TN, Cranberry Township, PA, King County, WA, New York, NY, St. Louis, MO, and the District of Columbia. This Agreement will solidify the City’s position as a Beta Community and allow staff to move forward with the pilot program.

FISCAL IMPACT:

Amount: \$25,000

Funding Source: Fiscal Year 2010-11 Operating Budget, Economic Development Enterprise Account, SP743, FIN980717.

ADDITIONAL INFORMATION:

The City of Des Moines has set a goal to be a leader in setting policies and practicing service delivery innovations to promote environmental sustainability. The proposed program can further this community goal by establishing a standardized performance measurement process, promoting the City’s progress with the general public and comparing Des Moines’ progress with other communities. This index could also be utilized as the City moves forward with the regional sustainable planning grant.

The funds for this program will provide the City with a web-based platform for managing and communicating sustainability efforts, access to implementation support from ICLEI and partners to create a standard sustainability dashboard that can be tailored to meet the needs of Des Moines and access to the STAR online platform for two years after the platform launches.

The STAR Community Index is a pilot program that will include features to enable local governments to analyze, map and manage all their sustainability data in one place, and to present that information to internal managers, executives and the public using a sustainability dashboard that interfaces with a city’s or county’s website.

STAR will provide a national, consensus-based system with indicators and metrics that will help local governments set priorities and maximize their investments in strategic actions. They will have the opportunity to “certify” their achievements through independent, third-party verification.

This new level of standardization and integrity in a rating system will give local governments more confidence in their investment decisions. In turn, as local governments implement model policies and best practices they will benefit from improved performance in greenhouse gas emission reductions, environmental protection, new jobs and more robust local commerce, and healthier communities.

PREVIOUS COUNCIL ACTION(S):

Date: November 22, 2010

Roll Call Number: [10-1940](#)

Action: Grant Application to ICLEI – Local Governments for Sustainability to become a Beta Community in the STAR Community Index program and receive assistance for creating a standardized process to measure sustainability performance. ([Council Communication No. 10-706](#)) Moved by Hensley to adopt. Motion Carried 6-1.

ANTICIPATED ACTIONS AND FUTURE COMMITMENTS: NONE

For more information on this and other agenda items, please call the City Clerk’s Office at 515-283-4209 or visit the Clerk’s Office on the second floor of City Hall, 400 Robert D. Ray Drive. Council agendas are available to the public at the City Clerk’s Office on Thursday afternoon preceding Monday’s Council meeting. Citizens can also request to receive meeting notices and agendas by email by calling the Clerk’s Office or sending their request via email to cityclerk@dmgov.org.
