

 <p style="text-align: center;">Council Communication Office of the City Manager</p>	Date: May 7, 2012
	Agenda Item No. 35 Roll Call No. [_____] Communication No. <u>12-212</u> Submitted by: Jeb E. Brewer, P.E. City Engineer

AGENDA HEADING:

Approval of Annual Right-of-Way Management Fee.

SYNOPSIS:

Recommend approval of the annual management fee in the amount of 0.65 cents per equivalent lineal foot (with a minimum fee of \$100) for the Right-of-Way (ROW) Management Program, which is documented in the Supplemental Right-of-Way Budget information attached to the Roll Call.

FISCAL IMPACT:

Amount: \$136,900 revenue from right-of-way of non-city utility users, and \$20,249 revenue from City of Des Moines Sewer Enterprise funds.

Funding Source: \$157,149 Revenue, Engineering Department Traffic and Transportation Operating Budget, T&T – Right-of-Way Management, ENG100421.

ADDITIONAL INFORMATION:

In accordance with the City of Des Moines Right-of-Way Management Ordinance, Chapter 102, Article IX of the City of Code, the City has established a program to manage and regulate the use of its street and alley right-of-way (ROW) by public and private users. The City has established provisions to charge ROW management fees to recover the costs of the program from all persons, companies and governmental entities present and performing activities in the right-of-way.

The City Engineer has calculated and hereby submits for City Council consideration the FY 2011-2012 annual management fee in the amount of 0.65 cents per equivalent lineal foot of ROW usage (or \$0.65 per 100 equivalent linear feet). This fee is charged to all ROW users on the basis of their reported or estimated usage of City ROW, as required by Section 102-711 of the City Code. Right-of-way users have utilities or other facilities in the public right-of-way, either underground or overhead.

Program costs that can be attributed to specific users (allocable costs) are recovered through permit fees (exclusive of license fees), which are specified in a separate fee schedule and are charged to those users when they obtain a permit for construction or maintenance activities. Program costs that cannot be attributed to specific users (non-allocable) are recovered through an annual management fee, which is charged to all users, including the City, based on their pro rata occupancy of City ROW.

All users are required to report to the City Engineer the amount of equipment or facilities they own and operate in the City ROW and update it on an annual basis. The 2011-2012 total footage of all ROW users is 24,016,989 equivalent lineal feet. The amount of the annual management fee charged to each user is then calculated based on their reported, estimated usage and the 0.65 cent rate per foot.
