ADDITIONAL INFORMATION:

On February 28, 2011, by Roll Call No. 11-0286, City Council approved a professional services agreement with Foth Infrastructure and Environment, LLC for evaluation, design, and construction phase services for Army Post Road Bridge Replacement over Great Western Trail and Creek. During the design process, existing wetlands were encountered that would be disturbed by the proposed construction activities. The U.S. Army Corps of Engineers (USACOE) did not approve wetland mitigation banking for this project as the project wetlands are classified as forested wetlands. Therefore, the USACOE requires the wetlands to be mitigated with on-site mitigation. Supplemental Agreement No. 1 reflects the additional costs to evaluate and design a wetland mitigation site adjacent to the project location.
