ADDITIONAL INFORMATION:

On July 13, 2009, by Roll Call No. 09-1190, the City Council approved professional services with Calhoun-Burns and Associates, Inc. for evaluation, design, and construction phase services for Easter Lake Drive over Easter Lake Bridge Rehabilitation. The design of the structure required relocation and coordination of the overhead utilities into underground conduits required additional design phase work. In addition, the one-year delay of the project start due to Indianola Road construction required adjustment to the 2013 hourly rate schedule for construction services. Supplemental Agreement No. 1 reflects the additional costs to complete final design and provide construction administration services.
