

 <p style="text-align: center;">Council Communication Office of the City Manager</p>	Date: September 8, 2014
	Agenda Item No. 27E Roll Call No. <u>14-1383</u> Communication No. <u>14-435</u> Submitted by: Scott E. Sanders, Assistant City Manager

AGENDA HEADING:

Approving the purchase of snow and ice control equipment and dump bodies to be mounted on tandem axle truck chassis for use by the Department of Public Works, Street Maintenance and Sewers Divisions.

SYNOPSIS:

Recommend approval of the purchase of snow and ice control equipment and dump bodies to be mounted on tandem axle truck chassis for use by the Department of Public Works, Street Maintenance and Sewers Divisions from Henderson Truck Equipment (916 South 10th Street, Manchester, Iowa, 52057, Marty Ward Owner/President) in the amount of \$391,159.00.

FISCAL IMPACT:

Amount: \$391,159.00

Funding Source: \$324,753.00 ND400563 Debt Service, Fiscal Year (FY) 2014 Lease, page 91; \$66,406.00 55% PW247411 Sanitary Sewer Maintenance, FY2014/15 Operating Budget, page 221 / 45% PW247413 Storm Sewer Maintenance, FY2014/15, page 230

ADDITIONAL INFORMATION:

Bids were solicited for emergency snow and ice control equipment and dump bodies to be mounted on six (6) replacement tandem axle truck chassis. Two bids were received from Henderson Truck Equipment. One bid contained an additional option of non-compliant valve material. Fleet staff contacted other possible bidders to determine the lack of bid responses. One previous bidder has since gone out of business, another out of state manufacturer did not bid directly as in past bid solicitations. Another potential bidder indicated that due to a lack of industry availability of components to supply all requested equipment they did not respond.

Henderson Truck Equipment did provide two bids; however, the low bid with Certified Power Technology Incorporated brand hydraulic valve components was non-compliant with the requirement to provide an all-aluminum valve. An option contained in the second bid from Henderson Truck Equipment that provided Force America brand hydraulics was also non-compliant in the requirement of an all-aluminum valve. The compliant bid from Henderson Truck Equipment providing Force America all aluminum valve components is compliant with the specifications and therefore award is recommended to Henderson Truck Equipment.

PREVIOUS COUNCIL ACTION(S):

Date: June 23, 2014
