- On October 22, 2018, under Roll Call No. 18-1725, the City Council received and filed plans, specifications, form of contract documents, and City Engineer's estimate for the construction of the Little Four Mile Trunk Sanitary Sewer. Before the City Council can enter into a contract, it must hold a public hearing and approve the proposed plans, specifications, and form of contract documents and engineer's estimate for the construction of the Little Four Mile Trunk Sanitary Sewer, 07-2018-003. The improvement includes construction of approximately 8,160 feet of open cut Poly Vinyl Chloride (PVC)/Ductile Iron/Truss pipe sanitary sewer, approximately 1,490 feet of trenchless sanitary sewer, manholes, Portland Cement Concrete (PCC) driveways, field fence removal and replacement, rip rap revetment, steel sheeting, Reinforced Concrete Pipe (RCP) culvert, traffic control, erosion control, surface restoration, and other incidental items; in accordance with the contract documents, including Plan File Nos. 591-188/209, located along N.E. 56th Street from the Iowa Interstate Railroad right-of-way to north of N.E. 23rd Street, along the westerly side of U.S. Highway 65 from Little Four Mile Creek to E. Douglas Avenue, and along the westerly side of E. 56th Street from Douglas Avenue northerly approximately 1,300 feet, partially in unincorporated Polk County and partially in Des Moines, Iowa.

- The public hearing on the Connection Fee Ordinance for Little Four Mile Trunk Sewer System Benefitted District has been continued, which resulted in delaying the bid opening from November 6, 2018 to December 4, 2018. This delay of bid opening requires the hearing on the plans, specifications, form of contract documents, and Engineer’s estimate of construction cost for said improvement to be continued to the December 17, 2018 Council.
