SYNOPSIS:

Recommend the City Council proceed with construction of the improvement and set dates to receive bids and hold a public hearing, as required by Iowa Code, utilizing the method of financing referenced below. The existing box culvert is approximately 10-foot-wide by 6-foot-tall, and nearly 100 years old. The 550 lineal feet of culvert in need of rehabilitation, located at the downstream end of the culvert that outlets at S.E. 6th Street and Hartford Avenue, is currently in an advanced state of deterioration.
