- Approve only the minimum documentation required by law in submitting the budget.
- The approval does NOT include the detail within the Recommended Operating Budget and Recommended Capital Improvement Program. This means that our budget process will begin with zero-based budgeting.
- The budget does include, as Mayor and Council were transparent in the previous months as we prepared for the Measure A referendum, that tax rate will increase by 20 cents to $17.24.
- Ask that the City Manager to return with a new Recommended Budget and CIP that assumes:
  - No Local Option Sales Tax for the foreseeable future and
  - That continues to be balanced with a mix of cuts and only modest tax rate increases.
  - The Manager would be asked to return with a recommendation by the last workshop in May.

- The Council directs the Manager to consider the following:
  - A temporary hiring freeze until a process is in place that seriously scrutinizes each vacancy and its importance. A similar process/procedure was in place in the past; but should be quickly re-instituted with even more voracity.
  - No new travel can be initiated until a new procedure is in place that includes review by peers from other departments and CMO.
  - Review of potential savings for positions that have an authorized strength but have been unable to reach the budgeted headcount; potentially setting the budgeted strength to reflect the actual headcount that can be fiscally maintained given known budget limitations.
  - Freeze on payments for all membership/association dues until they can be reviewed with a higher standard toward return on value for attending/joining.
  - Striking work on projects that do not have a clear funding mechanism; even if the project is slated years out.
  - Supporting the Mayor and Council in a public input process in the coming weeks/months related to budget priorities, necessary cuts and long-term sustainable revenue goals on which to base a multi-year CIP. This will include strategies to gain input from those who don’t often show up to town halls.
  - Consider the “return on investment” as criteria for future priorities.
- With regard to streets and road projects, prioritize existing roadways that we currently use.
- Prioritize elements of the CIP and Operating Budgets that focus on safety.
- Give priority to the programs/goals/commitments made in the December Resolution which identified priorities for the one cent local option revenues; had that passed. Namely, tax relief, streets/roads, public safety (NE Fire station, 13 firefighters, and Communications system), and neighborhood improvement, especially addressing blight.
- Consider a long-term strategy for revenue needs and the capacity of the city to pay additional property taxes.

Approve only the minimum documentation required by law in submitting the budget.

The approval does NOT include the detail within the Recommended Operating Budget and Recommended Capital Improvement Program. This means that our budget process will begin with zero-based budgeting.

The budget does include, as Mayor and Council were transparent in the previous months as we prepared for the Measure A referendum, that tax rate will increase by 20 cents to $17.24.

Ask that the City Manager to return with a new Recommended Budget and CIP that assumes:
- No Local Option Sales Tax for the foreseeable future and
- That continues to be balanced with a mix of cuts and only modest tax rate increases.
- The Manager would be asked to return with a recommendation by the last workshop in May.

The Council directs the Manager to consider the following:
- A temporary hiring freeze until a process is in place that seriously scrutinizes each vacancy and its importance. A similar process/procedure was in place in the past; but should be quickly re-instituted with even more voracity.
- No new travel can be initiated until a new procedure is in place that includes review by peers from other departments and CMO.
- Review of potential savings for positions that have an authorized strength but have been unable to reach the budgeted headcount; potentially setting the budgeted strength to reflect the actual headcount that can be fiscally maintained given known budget limitations.
- Freeze on payments for all membership/association dues until they can be reviewed with a higher standard toward return on value for attending/joining.
- Striking work on projects that do not have a clear funding mechanism; even if the project is slated years out.
- Supporting the Mayor and Council in a public input process in the coming weeks/months related to budget priorities, necessary cuts and long-term sustainable revenue goals on which to base a multi-year CIP. This will include strategies to gain input from those who don’t often show up to town halls.
- Consider the “return on investment” as criteria for future priorities.
- With regard to streets and road projects, prioritize existing roadways that we currently use.
- Prioritize elements of the CIP and Operating Budgets that focus on safety.
- Give priority to the programs/goals/commitments made in the December Resolution which identified priorities for the one cent local option revenues; had that passed. Namely, tax relief, streets/roads, public safety (NE Fire station, 13 firefighters, and Communications system), and neighborhood improvement, especially addressing blight.
- Consider a long-term strategy for revenue needs and the capacity of the city to pay additional property taxes.
