AGENDA HEADING:

Amending Chapter 78 of the Municipal Code regarding Transient Merchants.

SYNOPSIS:

Recommend approval of revisions to Chapter 78 of the Municipal Code; this chapter contains various regulations that govern the operation of transient merchants within Des Moines. The proposed revisions would prohibit retail food and merchandise sales within the city from any vehicle, trailer, tent, or temporary structure or from any temporary location or place, with the exception of: permitted premises with Certificates of Occupancy; yard sales; licensed use of right-of-way; street use permit; licensed peddlers; parks (with Park and Recreation Board approval); food vendor carts in downtown zoning districts (C-3, C-3R, and D-R); raw fruits and vegetables; Christmas trees (during November and December); at emergency and disaster sites with City approval; and licensed transient merchants.

Under the new regulations, all transient merchants would be required to obtain a license from the City Clerk. In order to obtain the license, they would be required to provide proof of an Iowa retailer sales tax permit. The transient merchant license would be valid for a maximum of three days at a cost of \$50. At least 10 days must elapse between the times when a parcel is used for the operation of a transient merchant license.

The Community Development Department and the Police Department would enforce the new regulations. Staff proposes that the regulations become effective May 15, 2008, in order to allow time for staff to inform local transient merchants and other interested parties of the changes.

FISCAL IMPACT:

Amount: Indeterminate

It is unclear how the new regulations will affect the number of transient merchants that apply for a transient merchant license. In calendar year 2007, 12 transient merchants were issued licenses, resulting in \$1,200 in revenue. This ordinance will expand the number of businesses that need a transient merchant license for operation. Operating costs associated with enforcement will be absorbed by current departmental budgets.

Funding Source:

Revenue from license fees will be deposited in FY 2007-08 Operating Budget, GE001 CCL010000, pg. 76.

ADDITIONAL INFORMATION:

Current City regulations define a transient merchant as "a person, principal, or agent who engages in an outdoor merchandising business from a temporary location or structure in the city, and whose lease on the premises on which the business is conducted is for a period of less than one year, and who, for the purpose of

carrying on such business, hires, leases or occupies any land, temporary structure, railway car, trailer or truck for the exhibition and sale of such goods, wares or merchandise and including the sale of any manufactured article, food, fruit, vegetable or farm product. (Sec. 78-61).

Before operating within the City, a transient merchant meeting the definition above is required to obtain a license from the City Clerk unless he or she wishes to conduct one of a number of exempted sales, such as the sale of food in the C-3 central business district or the sale of raw fruits and/or vegetables. A transient merchant license is valid for up to 30 days and can be renewed. Per City code, a vendor with a property lease that is valid for one year or more can operate without a transient merchant license.

Mobile food vendors fall into the category of transient merchants and must abide by City licensing regulations depending on the nature and location of their operations. Further, all mobile food vendors must be licensed with the Iowa Department of Inspections and Appeals, which also regulates and inspects their operations.

Staff has reviewed City regulations pertaining to transient merchants and recommends several ordinance amendments. In general, staff recommends that the City prohibit retail food and merchandise sales within the city from any vehicle, trailer, tent, or temporary structure or from any temporary location or place, with the exception of the exempted sales outlined in the "Synopsis."

Under the new regulations, all transient merchants (regardless of the length of their property leases) would be required to obtain a license from the City Clerk. In addition to current application requirements, transient merchants also would be required to submit their application five business days prior to use and offer proof of IA retailer sales tax permit. The license would be valid for a maximum of three days at a cost of \$50. At least ten days must elapse between the times when a parcel is used for the operation of a transient merchant. No transient merchant license would be issued for the operation of a transient merchant business on the same parcel within 10 days prior, nor 10 days after the time a transient merchant business is allowed to operate on the parcel under any license previously issued.

Staff has made special provision for transient merchants who wish to operate during specific events that last more than three days. Basically, licensed vendors can operate for the duration of the Iowa State Fair and Drake Relays provided that they are at a location within one-half mile of the boundaries of the Iowa State Fairgrounds or the Drake University campus. Transient merchants may operate at the site of a major construction project (over \$5 million) during construction. Also, transient merchants would be allowed to operate during an event that Council has identified as one of state-wide or national interest and believes that the number of visitors to the event warrants the allowance of transient merchants.

Community Development zoning inspectors, with the assistance of NBSD officers, will enforce the new regulations Monday through Friday, 8 AM - 5 PM. The Police Department will be responsible for enforcement during the evening hours and on weekends. As a condition of obtaining and operating under the transient merchant license, vendors must display their licenses so that they are visible from the street.

Another significant change in the regulations is the establishment of a 1,000 foot buffer zone around events for which a street use permit has been issued. No transient merchant may operate within the buffer zone without the prior written consent of the applicant for the street use permit for that event.

Staff proposes that the new transient merchant regulations become effective May 15, 2008, and that no license shall be issued under the existing regulations for any business activities to occur after May 25, 2008. The overlap between the old and new regulations is needed because any application under the new regulations cannot be officially filed until May 15, 2008, and must be filed at least 5 business days before the business starts operation.

If Council approves the new regulations, staff will conduct public outreach to make all stakeholders aware of

the ordinance changes. Staff will send letters concerning new regulations to former licensees and other registrants, property owners that lease to transient merchants, and interested organizations. Also, staff will explore options for financial assistance to transient merchants who wish to transition to a permanent structure for their business operations.

Staff intends to monitor compliance with and enforcement of the new transient merchant regulations and will report findings to Council one year after new ordinance is enacted.
