Nanci,

We are in much different times these days and our interest in this alley is a question mark to me. I know you have some background that will help.

I'm sure there is something which could be worked out though do have some questions:

Help me understand the value of the school district owning the entire alley? Seems we become responsible for maintenance for future owners of properties on both ends.

It looks to me the only value to the School district would be the alley area between 1421 (Walker Street metal building and the mobile classrooms.

Thanks,

Bill
