

Date September 22, 2008

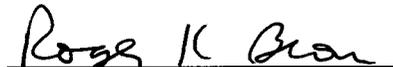

WHEREAS, on August 7, 2000, by Roll Call No. 00-3381 the City Council adopted the Des Moines 2020 Community Character Land Use Plan; and

WHEREAS, the City Plan and Zoning Commission has advised in the attached letter that at a public hearing held August 21, 2008, the members voted 12-0 in support of a motion to recommend **APPROVAL** of a request from Quincy Place, LLC represented by David Rogers (officer) to amend the Des Moines' 2020 Community Character Land Use Plan to designate the subject property located at 2501 24th Street from Low Density Residential to Mixed-Use and Density Residential, as more specifically shown by the accompanying map.

NOW THEREFORE, BE IT RESOLVED, by the City Council of the City of Des Moines, Iowa, that the proposed amendment to the Des Moines 2020 Community Character Land Use Plan described above, is hereby approved and adopted.

MOVED by _____ to adopt, and approve the proposed amendment.

FORM APPROVED:

 Roger K. Brown
 Assistant City Attorney

APPROVAL of a request from from Quincy Place, LLC represented by David Rogers (officer) to rezone property located at 2501 24th Street to rezone the entire parcel known as 2501 24th Street to a Limited "R-3" Multiple-Family Residential District subject to the owner agreeing to the following conditions:

1. Any multiple-family residential use of the property has a maximum 36 dwelling units. (Note: any multiple-family residential use of the property with more than 27 dwellings units is subject to the Zoning Board of Adjustment granting the necessary Exception from the zoning regulations.)
2. Any building shall be constructed to predominantly face 24th Street and have a front yard setback of approximately 30 feet.
3. Any off-street parking shall be either to the side or to the rear of any building constructed and not between the street and any building.

STAFF RECOMMENDATION AND BASIS FOR APPROVAL

Part A) Staff recommends the Commission find the proposed "R-3" Multiple-Family Residential District not in conformance with the Des Moines' 2020 Community Character Plan's current land use designation of Low-Density Residential.

Part B) Staff recommends that the Des Moines' 2020 Community Character Plan future land use designation be amended from Low Density Residential to Mixed-Use and Density Residential.

Part C) Staff recommends rezoning the entire parcel known as 2501 24th Street be rezoned to a Limited "R-3" Multiple-Family Residential District subject to the owner agreeing to the following conditions:

1. Any multiple-family residential use of the property has a maximum 36 dwelling units. (Note: any multiple-family residential use of the property with more than 27 dwellings units is subject to the Zoning Board of Adjustment granting the necessary Exception from the zoning regulations.)

2. Any building shall be constructed to predominantly face 24th Street and have a front yard setback of approximately 30 feet.
3. Any off-street parking shall be either to the side or to the rear of any building constructed and not between the street and any building.

Written Responses

3 In Favor

4 In Opposition

STAFF REPORT

I. GENERAL INFORMATION

1. **Purpose of Request:** The applicant is seeking to rezone the entire site to a Limited "R-3" Multiple-Family Residential District so that the zoning conditions are applicable to the entire parcel. The northern 60 feet (27%) of the subject property is zoned "R1-60" District while the balance is already zoned "R-3" District. The applicant intends to seek low-income tax credits from the State and construct a multiple-family residential structure upon demolition of the existing unoccupied nursing home.

If rezoned to "R-3" District, the 67,540-square foot site would be permitted to have 27 units (1 per 2,500 square feet of lot are). However, the applicant has indicated that if the site is successfully rezoned, they will likely receive an Exception from the "R-3" District regulations from the Zoning Board of Adjustment necessary to construct 36 dwelling units. This would require the Board to grant an Exception of 624 square feet of lot area less than the minimum required 2,500 square feet of lot area per dwelling unit.

Future redevelopment of the site for multiple-family residential use would be subject to review and approval of a site plan under Design Guidelines for Multiple-Family Residential by the Plan and Zoning Commission.

2. **Size of Site:** 220 feet by 307 feet or 67,540 square feet (1.55 acres).
3. **Existing Zoning (site):** The northernmost 60 feet of the subject property is zoned "R1-60 One-Family Low-Density Residential District and the balance is zoned "R-3" Multiple-Family Residential District.
4. **Existing Land Use (site):** The subject property currently contains an unoccupied nursing home with a paved parking lot.
5. **Adjacent Land Use and Zoning:**

North – "R1-60", Uses are single-family residential.

South – "R-3", Use is a multiple-family residential complex with two 8-unit structures.

East – "R-3"; Use is a heavily vegetated portion of the Freedom for Youth campus.

West – "R1-60", Uses are 24th Street and single-family residential.

6. **General Neighborhood/Area Land Uses:** The subject property is located in an area that transitions from commercial and multiple-family residential uses along Hickman Road to single-family residential uses to the north.
7. **Applicable Recognized Neighborhood(s):** NA.
8. **Relevant Zoning History:** NA.
9. **2020 Community Character Land Use Plan Designation:** Low-Density Residential.
10. **Applicable Regulations:** The Commission reviews all proposals to amend zoning regulations or zoning district boundaries within the City of Des Moines. Such amendments must be in conformance with the comprehensive plan for the City and designed to meet the criteria in §414.3 of the Iowa Code. The Commission may recommend that certain conditions be applied to the subject property if the property owner agrees in writing, prior to the City Council Hearing. The recommendation of the Commission will be forwarded to the City Council.

II. ADDITIONAL APPLICABLE INFORMATION

1. **Drainage/Grading:** Drainage and grading shall be evaluated during the site plan review process before the site can be graded or developed. Any Site Plan must conform to the storm water management requirements in the Site Plan policies. In addition, the applicant will be required to comply with Iowa DNR requirements for a Storm Water Pollution Prevention Plan (SWPPP).
2. **Landscaping/Screening:** Future redevelopment of the site as multiple-family residential would be subject to review and approval of a Site Plan under design guidelines for multiple-family residential. Any such Site Plan shall be required to adhere to the landscape standards applicable to the "R-3" District.

The site contains very few mature trees since the majority of the site is currently covered by the existing building and parking. There is a courtyard within the existing nursing home that contains approximately 4 overstory trees. It is likely that these trees will be damaged during demolition of the existing building. Staff believes that the overstory trees, understory trees, and other landscaping required by the landscape standards applicable to any submitted site plan would be sufficient to mitigate the loss of these existing trees.

3. **Traffic/Street System:** The subject site has 220 feet of frontage along 24th Street. The City's Traffic and Transportation staff has determined that 24th Street can adequately handle the traffic generated by any future development of the site as multiple-family residential.
4. **Access & Parking:** Future construction of a multiple-family residential structure would be subject to provision of 1-½ off-street parking spaces per dwelling unit. The submitted conceptual layout demonstrates a 54-space parking lot on the southern portion of the site located to the side and to the rear of the structure.
5. **2020 Community Character Plan:** The current Low-Density Residential future land use designation permits a maximum 6 dwelling units per net acre, whereas Mixed Use and Density Residential permits densities of over 17 dwelling units per net acre. The applicant indicates that the most units they intend to construct a maximum of 36 units on the site, which would represent a density of 23.2 dwelling units per acre. Staff recommends that a condition of approval be that the property is limited to a maximum 36 dwelling units, although any multiple-family residential use of the property with more than 27 dwellings units would be subject to the Zoning Board of Adjustment granting the necessary Exception to the zoning regulations.

6. Urban Design: The submitted conceptual site layout demonstrates placement of an apartment building oriented toward 24th Street having a 30-foot front yard setback with off-street parking located to the side and to the rear of the structure. Staff believes that this is the most appropriate layout for the neighborhood character given the parcel adjacent to the south contains two apartment buildings each having a 30-foot front yard setback with parking located to the rear.

SUMMARY OF DISCUSSION

Bert Drost: Presented staff report and recommendation.

Greg Jones: Asked if they flipped their plan so that the parking lot would be on the north side and their building on the portion already zoned "R-3", would they even need to rezone.

Bert Drost: Stated this would limit the number of units to 19 and that any parking lot extending into the "R1-60" district must be approved by the Commission.

Larry Hulse: The applicant has been very cooperative in that the conditions applied to the rezoning would apply to the entire property.

Leisha Barcus: Asked for clarification on the number of dwelling units being proposed.

Bert Drost: If rezoned to "R-3" District, the 67,540-square foot site would be permitted to have 27 units (1 per 2,500 square feet of lot area). However, the applicant has indicated that if the site is successfully rezoned, they will likely apply for an Exception from the "R-3" District regulations from the Zoning Board of Adjustment necessary to construct 36 dwelling units. This would require the Board to grant an Exception of 624 square feet of lot area less than the minimum required 2,500 square feet of lot area per dwelling unit. We are recommending a limit of 36 units so they cannot seek approval for more from the Board of Adjustment.

Kent Sovern: Asked how the Plan and Zoning Commission can take action that allows for more units.

Larry Hulse: They could only do so if the Zoning Board of Adjustment grants an Exception.

Mike Kastner, Architects Schipper Kastner, 3716 Ingersoll, representing Quincy Place: Stated that they did attend a neighborhood meeting and the neighbors expressed some concern about the original design 3-story building. They revised the plan to address their concerns. Instead of one large L-shape 3 story building, they moved parking access into the center, and put the higher density area to the north instead of to the south.

Brian Millard: Asked about the stormwater problems on the site.

Mike Kastner: Stated they are looking at more of an underground storage

JoAnne Corigliano: Asked about the wooded area to the east.

Bert Drost: It is the Freedom for Youth Ministry campus and contains a waterway

CHAIRPERSON OPENED THE PUBLIC HEARING

The following individuals spoke in opposition:

William Little, 2406 Holcomb: Concerned with the increase of bad elements in the area and the streets would not be able to handle the increased traffic. He also stated that Hickman Road floods often.

Bruce Heilman: Right now a substantial apartment complex can go into that property as long as they design it with the proper setback. However, this gives us an opportunity to put restriction on the entire project and the commission is very aware restriction is needed.

Jennie Jacobs, 2531 24th Street: Stated that she would like to see more home owners in the neighborhood. She is concern with the increase in traffic and the parking on 24th street. She felt that the radius of notification was too small that there are more people that would be affected by this proposal. She would like to see that site used for something such as another nursing home. This neighborhood is already close to a lot of drama and activity and maybe this will push it over the edge.

Brian Millard: Asked if the applicant was on the property and encouraged them to form a neighborhood association.

Laura Rettig, 2535 24th Street: Stated that there have been attempts to form a neighborhood association. She is also concerned with the increase traffic with the children playing at night, the parking, and the increase of difficulty of getting in and out of property.

Carlos Cluff, 2315 Holcomb: Stated that the rezoning needs to go through but is opposed to the proposed building on the property. The concerns of the neighbors are traffic, the roadways are not sufficient, and the quality of life in the neighborhood will be lessened. Another concern is needing someone who lives here and not in Winnipeg, Canada that has a mutual investment and will keep the money here in town.

David Rodgers, 1310 NW 2nd Street, Ankeny: The property is owned by Quincy Place, LLC and he partners in the liability and corporation and is the local manager. It became absolutely clear that this property will never be a nursing home so we had to find something else to do with it. They like the neighborhood, and they know there are a few problems.

Renie Neuberger, 2425 S. 12th Street, West Des Moines, Tax Credit Consultant for the developer Joseph Waltman: Stated that this project is similar to Jack Hatch's project. She explained how the projects are inspected annually by the Iowa Finance Authority and they are kept in repair. If the two apartment units to the south were Low Income Tax Credit project, these folks would not complain. This will be about a \$6 to a \$6.3 million dollar project. Joseph Waltman did talk to Jennie and said if she could get someone to put a nursing home there then he would consider it. A multi-family tax credit project is the best for this site.

Bruce Heilman: Asked how important is it that the project goes through with 36 units.

Renie Neuberger: Stated that she could not answer right now, but it might be possible to do less.

Dave Rodgers: Stated that he thought it will have to be 36 units or 19 market rates through IFA.

Brian Millard: Asked if the commission moves this through, would they try to reach the rest of the neighborhood.

Dave Rodgers: Answered yes.

Jacqueline Easley: Voiced concern about the language barriers and note that there is assistance in our community that can help with interpretation.

Larry Hulse: The future site plan must be approved by the Commission which includes building materials.

Billie Little, 2406 Holcomb: Stated that he is thirteen and still considered a kid. A lot of kids hang out and ride their bikes up and down the street. The apartments are not a good idea because of the traffic and because of the elementary school on the hill of Holcomb. The most recent event is today a beer bottle was in his yard, which had to come from either the apartments, Tommy's or who knows where.

CHAIRPERSON CLOSED THE PUBLIC HEARING

Larry Hulse: Noted that the site plan that they presented tonight was much improved from the first one and suggested when they come back to the commission they limit their design to 2 or 2 ½ stories.

Bruce Heilman: Would like them to develop a list of considerations when they come back with the number of units, keep the units to the south of the project for existing multi-family, and the town home look project lining the street.

Brian Millard: Would also like for them to consider using the property to the north as a buffer.

Larry Hulse: These are not conditions just considerations.

Leisha Barcus: Asked if the city would consider doing multi language cards.

Larry Hulse: Stated that they are very difficult to do. However, staff will look into it.

Jeff Johannsen: Thanked the neighborhood, especially the young man, and suggested that the neighborhood work with the developer as much as possible and vice versa.

Bruce Heilman Moved staff recommendation to find the proposed "R-3" Multiple-Family Residential District **not** in conformance with the Des Moines' 2020 Community Character Plan's current land use designation of Low-Density Residential.

Motion passed 12-0.

Bruce Heilman Moved staff recommendation that the Des Moines' 2020 Community Character Plan future land use designation be amended from Low Density Residential to Mixed-Use and Density Residential.

Motion passed 12-0.

Bruce Heilman Moved staff recommendation to rezone the entire parcel known as 2501 24th Street to be rezoned to a Limited "R-3" Multiple-Family Residential District subject to conditions:

Motion passed 12-0

Reason for opposing or approving this request may be listed below:

Our neighborhood does not need more low-income
apartments. We already have two buildings next to
the Hickman Pub and we have more traffic and parking issues
than 24th street can handle. This project would compound
our existing problems. Let's talk about putting in a park
or some single-family homeowners. That would bring more
stability to this neighborhood that's on the edge.
Thank you for your time. -gg

August 16, 2008

City Planning and Zoning Commission
Daniel Flaherty, Chairperson
Armory Building
Des Moines, IA 50309

OUTSIDE 250' BOUNDARY

RE: ZON2008-00104

Dear Chairperson Flaherty,

Quincy Place, LLC is requesting rezoning of property located at 2501 24th St to allow development of a three story 36 unit apartment building. As a home owner in this neighborhood, I am asking that you not approve the rezoning and not approve the development plan.

We are a neighborhood of single family homes. We are connected to our neighborhood. We care about each other. We are committed to the continuing upkeep and vitality of our neighborhood.

Apartment renters are not connected to a neighborhood like homeowners are. Renters do not have a commitment to the neighborhood like homeowners do. Renters do not care about a neighborhood like homeowners do.

Please keep the zoning of this property as one-family low density and restrict development in our neighborhood to single family homes.

Thank you,

Mary Meier
2505 26th Street
Des Moines, IA 50310

Item 5

August 20, 2008

City Plan and Zoning Commission
Armory Building
Des Moines, IA 50309

Plan and Zoning Commission:

I greatly disapprove of the request from Quincy Place, L.L.C. for the re-zoning of property located at 2501 24th Street in Des Moines for their intended purpose of removing the existing building and building in its place a multi-story, 36 unit apartment building.

This would place a large apartment complex right in the middle of an otherwise single family residential area. The proximity to these homes would be very close, less than 100 feet of the closest residents. The proposed 36 unit building being erected in that 1.5 acre parcel could easily cause more than 100 people to be living within an area that would normally encompass only a few single family homes. This would also bring a vast increase of traffic into a residential neighborhood. This increase in the traffic flow around our neighborhood would prove very detrimental, especially in light of the amount of children who live and play in this area.

I believe that the requested re-zoning would change the structure of this neighborhood. All of the homes in this area fall into the postwar housing stock, being built in the 50s and 60s. The homeowners in this area have continued to invest in the rehabilitation and upkeep of these homes, and have created a neighborhood of above average quality of homes, which attract the contemporary homeowner to this neighborhood for those seeking homes in the price ranges and structure of this area. If the proposed building is erected, this may discourage homeowners in the area from continuing to invest in these homes, when they can reap more from their efforts in houses of other neighborhoods.

This area of homes is located in a very moderate income area. This moderate income area is very close to a lower income area, and to bring in this low income housing would cause the low income area to expand right into this moderate income – family home - area. .

I have attempted to access the City's 2020 Community Character Plan but have been unable to view it online using two different computers, so I am unable to comment on whether I believe that this request is in line with the plan.

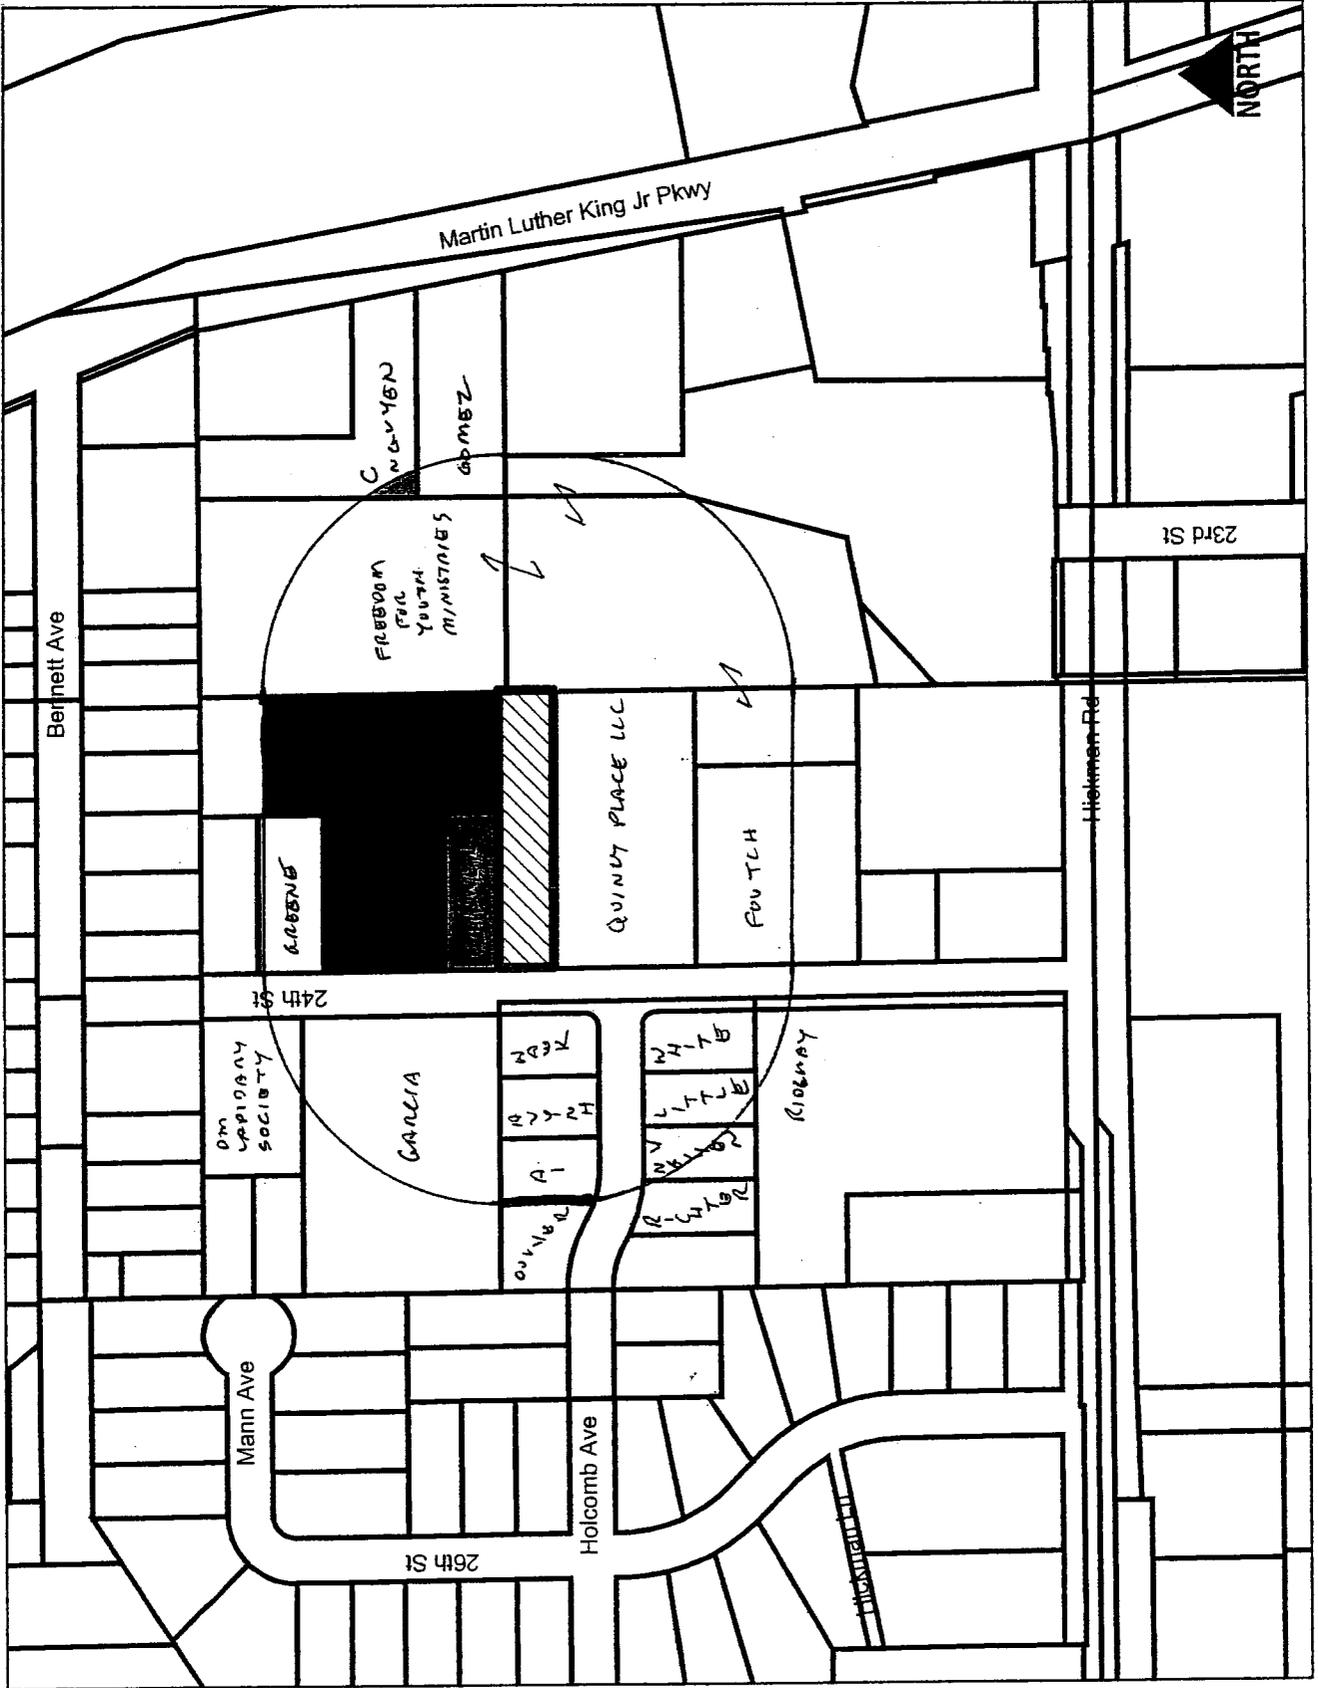

I ask that the Des Moines Plan and Zoning Commission deny the applicant's request for re-zoning of this property.

Sincerely

Marianne Jones
Neighborhood Resident
