### **STAFF RECOMMENDATION TO THE P&Z COMMISSION**

Part A) Staff recommends approval of the requested vacation of Morton Avenue subject to reservation of easements for any public utilities in place to remain until such time as Grand View University either assumes private ownership of the facilities or relocates the utilities with creation of new public easements.

Part B) Staff recommends that the Commission find the proposed rezoning in conformance with the Des Moines' 2020 Community Character Plan future land use designation of Public/Semi-Public.

Part C) Staff recommends approval of the requested rezoning for an additional 0.54 acres to "PUD" Planned Unit Development.

Part D) Staff recommends approval of the amendment to the "PUD" Concept Plan subject to the following:

1. Provision of a minimum 25-foot setback along East 14<sup>th</sup> Street for any off-street parking area.
2. The Conceptual Plan shall be revised to demonstrate removal of existing parking lot areas being restored with sod and landscaping materials.

### **STAFF REPORT**

#### **I. GENERAL INFORMATION**

1. **Purpose of Request:** The applicant is proposing to expand the Grand View University east campus by incorporating the properties known as 1422 and 1431 Morton Avenue, as well as the remaining 120-foot long segment of Morton Avenue right-of-way east of Idaho Street.

This is the fifth requested amendment to the Conceptual Plan. The University is proposing to add additional parking lots within the southern portions of the PUD, remove an existing parking lot just east of the student center, and add pedestrian connections on campus.

2. **Size of Site:** 0.54 acres is proposed to be added to the existing "PUD" for a total "PUD" area of 33.28 acres in the East campus. The requested segment of Morton Avenue right-of-way measures approximately 150 feet by 50 feet (6,000 square feet).
3. **Existing Zoning (site):** "R1-60" One-Family Low-Density Residential District and "PUD" Planned Unit Development.

4. **Existing Land Use (site):** The areas proposed for rezoning include two single-family dwellings that have been acquired by Grand View University for demolition in order to accommodate future development. The area currently zoned “PUD” includes campus buildings and parking, as well as five single-family dwellings that would be demolished.

5. **Adjacent Land Use and Zoning:**

*North* – “PUD”. Use is the east campus of Grand View University.

*South* – “R1-60”, Uses are single-family residential on the south side of Morton Avenue.

*East* – “PUD”. Use is the east campus of Grand View University.

*West* – “PUD” and “R1-60”, Uses are the east campus of Grand View University and single-family dwellings on the south side of Morton Avenue.

6. **General Neighborhood/Area Land Uses:** The subject property is located east of the East 14<sup>th</sup> Street major arterial and south of the Hull Avenue collector with primarily low-density residential uses at the periphery and the Luther Park retirement community to the east of the subject PUD.

7. **Applicable Recognized Neighborhood(s):** Union Park Neighborhood Association.

8. **Relevant Zoning History:** The Grand View College – East PUD was approved on August 5, 2002 by the City Council. This included the proposal to add a new three-story, 20-suite student apartment building along Hull Avenue. There have been four subsequent amendments to provide additional student housing, an addition to the wellness center, revised access, off-street parking, electronic signage, and transformer cabinets. The most recent amendment approved by City Council on May 10, 2010, includes a 43,000-square foot two-story expansion to the Grand View Student, development of an enclosed pedestrian overpass over East 14th Street connecting the expanded Grand View Student Center to the Rasmussen Center, construction of a four-story student housing building, and development of additional off-street parking.

9. **2020 Community Character Land Use Plan Designation:** Public/Semi-Public & Low Density Residential (practice field only).

10. **Applicable Regulations:** The Commission reviews all proposals to vacate land dedicated for a specific public purpose, such as for streets and parks, to determine whether the land is still needed for such purpose or may be released (vacated) for other use. The recommendation of the Commission is forwarded to the City Council.

The Commission reviews all proposals to amend zoning boundaries or regulations within the City of Des Moines. Such amendments must be in conformance with the comprehensive plan for the City and designed to meet the criteria in 414.3 of the Iowa Code. The Commission may make recommendations to the City Council on conditions to be made in addition to the existing regulations so long as the subject property owner

agrees to them in writing. The recommendation of the Commission will be forwarded to the City Council.

The application, accompanying evidence and Conceptual Plan shall be considered by the Plan and Zoning commission at a public hearing. The Commission shall review the conformity of the proposed development with the standards of this division and with recognized principles of civic design, land use planning, and landscape architecture. At the conclusion of the hearing, the Commission may vote to recommend either approval or disapproval of the Conceptual Plan and request for rezoning as submitted, or to recommend that the developer amend the plan or request to preserve the intent and purpose of this chapter to promote public health, safety, morals and general welfare. The recommendations of the commission shall be referred to the City Council.

## **II. ADDITIONAL APPLICABLE INFORMATION**

- 1. Drainage/Grading:** The campus currently has many storm water management improvements in place including detention basins. Engineering staff has reviewed the Conceptual Plan and believes the conceptual locations for drainage and storm water management are adequate. Approval of any future Development Plan will be subject to compliance with grading/silt control, storm water management requirements, and Site Plan policies for drainage and grading.

In late 2005, the City completed upgrades to the storm sewer in East Sheridan Avenue that conveys storm water released from properties in the vicinity of the subject property to an open drainage area two blocks to the east. This relieved drainage problems on East 16<sup>th</sup> Street and Sampson Street that were occurring during heavy rain events by intercepting storm water along East Sheridan Avenue that would have normally continued to drain north.

- 2. Utilities:** Easements for existing facilities within Morton Avenue right-of-way must be provided until they are removed or relocated at the applicant's expense.
- 3. Landscaping & Buffering:** The PUD Concept Plan shows existing landscaping and previously approved conceptual landscaping and buffering of the off-street parking lots. The Conceptual Plan includes a cross section detail that demonstrates an 18-inch tall berm that would surround off-street parking lots. The berm would include overstory trees spaced approximately every 30 feet and a continuous row of shrubs.

The Conceptual Plan includes a provision that all off-street parking areas will be landscaped in accordance with the landscaping standards as applicable to the "R-3" District. This will include a mix of perimeter and interior plantings and a landscaped buffer to screen the parking lot.

The Conceptual Plan demonstrates that an existing parking lot to the east of the Student Center will be removed. Staff recommends that the Conceptual Plan demonstrate that this area will be restored with sod and landscaping materials.

The Conceptual Plan includes the provision that removal of existing landscaping for proposed building and parking areas is subject to compliance with tree mitigation requirements as part of any Development Plan.

- 4. Access or Parking:** Two additional surface parking areas are proposed, including one at the northeast corner of the intersection of East 14<sup>th</sup> Street and Morton Avenue, and one at the northeast corner of the intersection of Idaho Street and East Sheridan Avenue. The Conceptual Plan states that a 10-foot paving setback shall be provided along all front property lines. While a 10-foot setback is adequate along Morton Avenue, Idaho Street, and East Sheridan Avenue given the proposed landscape berm, staff believes that a 25-foot paving setback is appropriate along East 14<sup>th</sup> Street since it is a major arterial.

The Conceptual Plan demonstrates the requested segment of Morton Avenue right-of-way would be used for an access drive. The Conceptual Plan also demonstrates a short drive access entrance off Idaho Street just south of Morton Avenue.

- 5. Traffic/Street System:** Traffic and Transportation Division staff has indicated that the surrounding street network is adequately designed for any future use and development proposed by the Concept Plan. The dead end segment of Morton Avenue proposed to be vacated and removed currently serves as street frontage for existing single-family dwellings owned by Grand View University that will be removed for the project.
- 6. 2020 Community Character Plan:** The proposed usage of the subject property for higher educational purposes is consistent with the Public/Semi-Public future land use designation in the Des Moines 2020 Community Character Plan.

## **SUMMARY OF DISCUSSION**

*There was no discussion.*

## **CHAIRPERSON OPENED THE PUBLIC HEARING**

*There was no one to speak in support or opposition of applicant's request.*

## **COMMISSION ACTION**

Kent Sovern moved staff recommendation Part A) To approve the requested vacation of Morton Avenue subject to reservation of easements for any public utilities in place to remain until such time as Grand View University either assumes private ownership of the facilities or relocates the utilities with creation of new public easements.

Part B) To find the proposed rezoning in conformance with the Des Moines' 2020 Community Character Plan future land use designation of Public/Semi-Public.

Part C) To approve the requested rezoning for an additional 0.54 acres to "PUD" Planned Unit Development.

Part D) To approve the amendment to the "PUD" Concept Plan subject to the following:
