## **STAFF REPORT**

### **I. GENERAL INFORMATION**

The Community Development Department is transitioning from use of Adobe Illustrator software to ArcView GIS software for production, maintenance, and storage of the Des Moines' 2020 Community Character Plan Future Land Use Map. Regenerating the land use map in the new software has presented the opportunity to designate future land uses for areas that were recently annexed and to update the Development Control Zone land use designation across the City for areas that are subject to flood hazards based on most recent information and data. Changes to the future land use designations for some parcels will be proposed as sub-area planning efforts are completed. The new Future Land Use Map GIS layer will provide greater analysis capabilities for staff.

### **SUMMARY OF DISCUSSION**
