Request Type: Comment

Message:

I will be submitting the following as an addendum or request to city council regarding new requests for signage in the city. Any new sign application granted should be granted for a specific time and be limited in its time frame. This would provide future generations a mechanism to deal with that portion of street scrapes without the notion of "grandfathering" signage. We are reaping the poor decisions of the past and would hope to prevent the same in the future. Signage permits would expire and not renewed if they do not fit overall street scape plan. This could give us some breathing room to develop a truly thoughtful plan. And even then we should not be foisting our vision into the future in perpetuity.
