Sec. 114-666. Adjustment of rates.

- (a) The rates established in this division may be adjusted by resolution of the city council so long as such adjustment is consistent with city council established guidelines for free or reduced rate parking and the city council finds each such adjustment to be in the best interest of the city and without jeopardy to the city's ability to achieve and maintain bond financing for its parking facilities system.
- (b) The rates established in this division may be adjusted by the city council in conjunction with city council approval of an economic development grant, loan or other financial assistance

for job creation or job retention provided that any reduction of rates will not have an adverse impact on actual revenues to the parking facilities system.

- (c) At the direction of the city traffic engineer, temporary reduced monthly or daily rates may be charged in any parking garage for up to six months, or temporary reduced monthly rates may be charged in any parking garage for up to twelve months in conjunction with a contemplated long-term parking arrangement, as an incentive to attract additional parking customers during times when unused spaces are available. Such temporary reduced rates shall be charged only when a preliminary analysis has indicated that total parking revenues will increase in the garage or garages where such reduced rates are proposed. The implementation of temporary reduced rates shall be subject to the prior review and approval of the city manager and city attorney to ensure compliance with any parking system revenue bond covenants and restrictions relating to tax exemption. Any time that temporary reduced rates are charged, the city traffic engineer shall conduct an analysis to determine the impact on actual revenues and shall terminate the temporary reduced rates if such rates have an adverse impact on actual revenues to the parking facilities system.
- (d) At the discretion of the city traffic engineer, the base prepaid special event rate of \$5.00 may be increased up to \$10.00 in any parking garage based on the anticipated increased parking demand related to the special event.

Section 2. This ordinance shall be in full force and effect from and after its passage and publication as provided by law.
