Regarding: I work for Murphy Tractor and Equipment- John Deere Construction Equipment Dealership. We recently participated in an equipment bid for new loader backhoes. They city accepted a lower bid from a supplier that did not fully conform to the bid specs. My question is: In future bids, are vendors going to be made to comply in bid specs, or is it just low bid price with little or no regards to bid specs. This is important us and other vendors as to how we approach future equipment bids for the city of Des Moines. Thank you very much.
