

Date August 6, 2018

AUTHORIZING THE UTILITY CONDUIT INSTALLATION AGREEMENTS FOR RIGHT OF WAY USERS ACROSS THE LOCUST STREET BRIDGE OVER THE DES MOINES RIVER

WHEREAS, the existing bridge supports many existing utilities and the City has been involved in utility coordination with those existing right of way users to permanently or temporarily relocate off the bridge for construction of a new bridge; and

WHEREAS, many right of way users have requested the new Locust Street Bridge over the Des Moines River be able to support/accommodate new utility conduit(s) for their use once the new bridge is built; and

WHEREAS, it is more efficient for the City to install conduit for right of way users that want equipment in the right of way of the Locust Street Bridge due to the limited space and design coordination required, the number of right of way users involved, and the time constraints of the project during construction; and

WHEREAS, the City Legal Department has prepared a Utility Conduit Installation Agreement between the City and right of way users for purposes of the City agreeing to install conduit through the City's construction contract and the right of way user agreeing to reimburse the City for that cost.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA: That the City Engineer is hereby authorized and directed to execute the individual Conduit Installation Agreements, as approved as to form by the Legal Department, with right of way users who desire to locate in the new Locust Street Bridge over the Des Moines River.
