STAFF RECOMMENDATION TO THE P&Z COMMISSION

Staff recommends approval of the proposed 6th Amendment to the Mercy "PUD" Conceptual Plan, subject to the following revisions:

1. Any "Sign Type 2" freestanding identification sign shall have a minimum 2-foot tall opaque base, constructed of brick, stone, concrete block or other durable material matching the exterior of the hospital and extends from grade to the bottom of the sign face across the entire width of the sign face.
2. Any "Sign Type 2" freestanding identification sign that is within 25 feet of a front lot line shall not exceed 12 feet in overall height.

STAFF REPORT TO THE PLANNING COMMISSION

I. GENERAL INFORMATION

1. **Purpose of Request:** The proposed amendment to Mercy Medical Center's "PUD" Planned Unit Development District would allow revision of the freestanding signage plan for the entire campus. The amendment would increase the number of allowed freestanding signs on the campus from 17 signs to 23 signs. The amendment would also revise the design and dimensions of all signs, exclusive of the 4 gateway signs, so that the signs reflect the current corporate branding that is being implemented at all "MercyOne" location. The requested amendment also proposes to shift the placement of a permitted 200-square foot wall-mounted sign on the western façade of the building so that it would be located further to the south.
2. **Size of Site:** Approximately 38 acres.
3. **Existing Zoning (site):** "PUD" Planned Unit Development District.
4. **Existing Land Use (site):** The site contains the Mercy Medical Center campus.

5. Adjacent Land Use and Zoning:

North – “C-2” & “M-1”, Uses include Comito’s Fifield Pharmacy, Mercy Education Center, Riley Physician Office, University Nursing & Rehabilitation Center, and Burger King.

South – “C-O” & “C-2”, Uses include Des Moines Medical Center offices, Iowa Dental Supply, and Medical Office Plaza.

East – “M-1”, Use is Des Moines Metro U.S. Post Office.

West – “C-2”, Uses include QuikTrip, Mercy Daycare, and offices for Planned Parenthood of Greater Iowa.

6. **General Neighborhood/Area Land Uses:** The subject property is located north of Interstate 235 between residential neighborhoods to the north and west and commercial uses to the south and east.

7. **Applicable Recognized Neighborhood(s):** The subject property is located within the Cheatom Park Neighborhood and within 250 feet of the River Bend Neighborhood. All recognized neighborhoods were notified of the meeting by mailing of the Preliminary Agenda on November 1, 2019. Additionally, separate notifications of the hearing for this specific item were mailed on November 11, 2019 (10 days prior to the scheduled hearing) to the Cheatom Park Neighborhood, River Bend Neighborhood, and to the primary titleholder on file with the Polk County Assessor for each property within 250 feet of the site. A Final Agenda for the meeting was mailed to all the recognized neighborhood associations on November 15, 2019.

All agendas and notices are mailed to the primary contact(s) designated by the recognized neighborhood association to the City of Des Moines Neighborhood Development Division on the date of the mailing. The Cheatom Park Neighborhood Association mailings were sent to Susan Wells, 1157 14th Place, Des Moines, IA 50314 and the River Bend Neighborhood Association mailings were sent to Jon royal, 1830 8th Street, Des Moines, IA 50314.

8. **Relevant Zoning History:** The Mercy Medical Center “PUD” Conceptual Plan was originally approved on April 5, 2004 by Ordinance 14,333.

The 1st amendment was approved administratively in June 2004 to allow construction of a building addition to the south side of the hospital for a “Cyber Knife” facility.

The 2nd amendment was approved administratively in June of 2006 to allow a new signage plan for the hospital complex.

The 3rd amendment was approved by City Council in April 2007 (Roll Call 07-688) to allow construction of a building addition to the northwest corner of the hospital for an expansion of the emergency room and a helicopter pad.

The 4th amendment was approved on September 26, 2016 (Roll Call 16-1668) to expand the PUD area by 2.3 acres and to allow for the following: demolition of the existing Mercy Apartments for development of a new parking structure and additional surface parking; demolition of the Mercy Office Plaza building for development of a

parking structure; and demolition of the existing east parking structure for development of an 11-story hospital tower with 2 levels of subsurface parking.

The 5th amendment was approved administratively in July 2019 to allow installation of a sign for the children's hospital.

9. PlanDSM Land Use Plan Designation: Public/Semi Public & Medium Density Residential.

10. Applicable Regulations: Taking into consideration the criteria set forth in Chapter 18B of the Iowa Code, the Commission reviews all proposals to amend zoning boundaries or regulations within the City of Des Moines. Such amendments must be in conformance with the comprehensive plan for the City and designed to meet the criteria in 414.3 of the Iowa Code. The Commission may make recommendations to the City Council on conditions to be made in addition to the existing regulations so long as the subject property owner agrees to them in writing. The recommendation of the Commission will be forwarded to the City Council.

The application, accompanying evidence and "PUD" Conceptual Plan shall be considered by the Plan and Zoning commission at a public hearing. The Commission shall review the conformity of the proposed development with the standards of the City Code and with recognized principles of civic design, land use planning, and landscape architecture. At the conclusion of the hearing, the Commission may vote to recommend either approval or disapproval of the amended "PUD" Conceptual Plan as submitted, or to recommend that the developer amend the plan or request to preserve the intent and purpose of this chapter to promote public health, safety, morals and general welfare. The recommendations of the Commission shall be referred to the City Council.

II. ADDITIONAL APPLICABLE INFORMATION

1. Signage: The proposed "PUD" Conceptual Plan amendment proposes a new unified signage plan for the entire campus in order to reflect the current "MercyOne" signage that is being utilized at all "MeryOne" locations. The proposed signage plan allows for two (2) sign types with a total of five (5) sign sizes. The proposed amendment would increase the number of freestanding signs on the campus from 17 signs to 23 signs.

The proposed signage plan does not modify "Sign Type 1", which is a "gateway" sign that is 10 feet tall, exclusive of an additional cross element that can be approximately 24 feet tall. The signage plan continues to provide four (4) of these signs located at the major corners of the campus.

The proposed signage plan proposes a new "Sign Type 2", which is a freestanding sign that would cantilever from a single post. The plan proposes four (4) different sizes of this sign type, ranging in height from 4 feet tall to 12 feet tall.

If the site were not zoned "PUD" Planned Unit Development District, it would be subject to the "FSO" Freestanding Signs Overlay District regulations, which requires that any on-premises advertising sign that is a freestanding sign to be a monument sign. The "FSO" District regulations limit any sign less than 25 feet from a front lot line to no more

than 8 feet in height and any sign more than 25 feet from a front lot line to no more than 15 feet in height.

The City Code defines a monument sign as “a sign affixed to a structure built on grade, having a solid opaque base, constructed of brick, stone, concrete block or other durable material matching the exterior of the primary building and extending from grade to the bottom of the sign face across the entire width of the sign face. The height of the sign base must be not less than the larger of 2 feet or 25 percent of the total sign height.”

In order to be consistent with the “FSO” District regulations, Staff recommends that any “Sign Type 2” freestanding identification sign should have a minimum 2-foot tall opaque base, constructed of brick, stone, concrete block or other durable material matching the exterior of the hospital and extending from grade to the bottom of the sign face across the entire width of the sign face.

Staff also recommends that any “Sign Type 2” freestanding identification sign that is within 25 feet of a front lot line shall not exceed 12 feet in overall height. This is the equivalent of the maximum Exception-level relief that could be considered (50% over allowed 8 feet of height) if the site were subject to the “FSO” District regulations.

SUMMARY OF DISCUSSION

Jacqueline Easley recused herself from the hearing as she is employed by Mercy One. Jann Freed served as chairperson for the hearing. John Hilmes also recused himself from the hearing as his law firm has previously represented Mercy One regarding other issues.

Erik Lundy presented staff report and recommendations.

Greg Wattier asked if the proposed amendment would change quantity, location or height of signs.

Erik Lundy stated the request would generally modify the height and size of previously approved signs. He would ask that the applicant provide specifics on the request.

Pat Dunn, 301 Grand Ave. representing RDG Plan and Design stated Mercy One is in the process of rebranding and the new sign design is currently being implemented around the state. An overhead image was presented to the commission showing the current and proposed signage. They are proposing 5 locations of a 12' tall sign and 3 locations of an 8' tall sign which is a reduction in height from what's currently approved in the PUD. As for the base of these signs not meeting the requirements of being masonry, they feel it will meet the intent with purposed plant material covering the bottom portion of these signs. They ask for the commission to reconsider condition number one in the staff report.

Greg Wattier asked how many will be in planting beds, grass areas and adjacent to sidewalks.

Pat Dunn stated a vast majority will be in landscaped areas with the ability to have plant material at the base.

Greg Wattier stated the only concern he has would be durability. He has concerns about signs adjacent to paved area being damaged, whether it's a bicycle tire or shovel getting trapped underneath the sign.

Will Page Stated Mercy One has come up with a design that makes better sense in terms of wayfinding and anti-clutter. Signage is an important aspect for a business but sometimes can get out of control visually.

Sandy Swanson 1111 6th Avenue for Mercy One, stated she was heavily involved in the design process and the intent was to improve wayfinding on their campus. Also, these signs will be tied to all our facilities across the state so it will speed up the process of finding your way and add comfort when patients arrive at our facilities.

CHAIRPERSON CLOSED THE PUBLIC HEARING

Greg Wattier stated he would propose a modification to condition number one stating, "or provide shrubbery on all sides of the base to provide protection for the sign". That would give them the choice and if they aren't able to do that in some locations, they'll need to provide a durable base.

Will Page asked if Greg would approve an amendment to his motion by striking condition number one entirely.

Greg Wattier stated he would like to see where the motion goes, he is concerned about the durability of the sign.

Pat Dunn stated it would be in Mercy's best interest to provide durability as well. They wouldn't want any damaged signs on their property.

Abby Chungath stated the condition would have to be adjusted for the smaller signs because shrubbery could potentially block view of the sign.

Pat Dunn stated there are identification signs and direction signs. The directional signs are more of the smaller existing post and panel signs, that currently don't have a contiguous base. If the commission doesn't strike the first condition, we will need to work with staff to differentiate the identification signs around the perimeter.

Greg Wattier made a motion for approval of the proposed 6th Amendment to the Mercy "PUD" Conceptual Plan, subject to the following revisions:

1. Any "Sign Type 2" freestanding identification sign shall have a minimum 2-foot tall opaque base, constructed of brick, stone, concrete block or other durable material matching the exterior of the hospital and extends from grade to the bottom of the sign face across the entire width of the sign face or add shrubbery to both sides of the base.
2. Any "Sign Type 2" freestanding identification sign that is within 25 feet of a front lot line shall not exceed 12 feet in overall height.

Motion Failed 2-8-2 (Greg Wattier and Lisa Howard voted in favor. Will Page, Rocky Sposato, Greg Jones, Emily Webb, Abigail Chungath, David Courard-Hauri, Jann

Freed and Dory Briles opposed. John “Jack” Hilmes and Jacqueline Easley abstained)

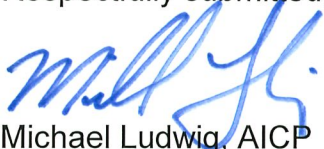

COMMISSION ACTION:

Will page made a motion for approval of the proposed 6th Amendment to the Mercy “PUD” Conceptual Plan, subject to the following revisions:

1. Any “Sign Type 2” freestanding identification sign that is within 25 feet of a front lot line shall not exceed 12 feet in overall height.

Motion Carried: 8-2-2 (Will Page, Rocky Sposato, Greg Jones, Emily Webb, Abigail Chungath, David Courard-Hauri, Jann Freed and Dory Briles voted in favor. Greg Wattier and Lisa Howard opposed. Jacqueline Easley and John “Jack” Hilmes abstained)

Respectfully submitted,

Michael Ludwig, AICP
