STAFF REPORT TO THE PLANNING COMMISSION

I. GENERAL INFORMATION

1. **Purpose of Request:** The proposed amendment to the Eastgate PUD Conceptual Plan would allow a 1.28-acre interior portion of the PUD to be developed with a 7,145-square foot medical office building. The proposed Conceptual Plan demonstrates that the medical office building would be located north of an existing Quick Trip building (E. Euclid Ave) and east of an existing Eastgate Shops building (E. 14th St). The site would have access through an internal driveway to both East 14th Street and East Euclid Avenue.

The development of this site must be in accordance with a PUD Development Plan that complies with the requirements established in the PUD Conceptual Plan and with the review processes outlined in Chapter 135 of the Municipal Code.

2. **Size of Site:** The proposed amendment area measures 55,925 square feet (1.28 acres) in area.
3. **Existing Zoning (site):** “PUD” Planned Unit Development District.
4. **Existing Land Use (site):** The property includes vacant pad sites with some paved area in disrepair that previously served as off-street parking.
5. **Adjacent Land Use and Zoning:**
 - North** – “PUD”; Use is vacant land (formerly the Eastgate Plaza commercial center).
 - South** – “PUD”; Use is a fuel station with convenience store (Quik Trip).
 - East** – “PUD”; Use is vacant land (formerly the Eastgate Plaza commercial center).
 - West** – “PUD”; Use is a multi-tenant commercial building.
6. **General Neighborhood/Area Land Uses:** The site is located at the northeast corner of the intersection of East Euclid Avenue and East 14th Street. Both of these streets are major commercial corridors.
7. **Applicable Recognized Neighborhood(s):** The subject property is within the Highland Park Neighborhood. This neighborhood association was notified of the meeting by mailing of the Preliminary Agenda to all recognized neighborhoods on January 14, 2022. Additionally, separate notifications of the hearing for this specific item were mailed on January 14, 2022 (20 days prior) and January 24, 2022 (10 days prior to the scheduled hearing) to the Highland Park Neighborhood Association, and to the primary titleholder on file with the Polk County Assessor for each property within 250 feet of the site.

All agendas and notices are mailed to the primary contact(s) designated by the recognized neighborhood association to the City of Des Moines Neighborhood Development Division. The Highland Park Neighborhood Association mailings was sent to Sherri Rosener, 1206 Oak Park Ave, Des Moines, IA 50313.

The applicant is responsible for conducting a neighborhood meeting, inviting representatives of the Highland Park Neighborhood Association and surrounding property owners within 250 feet. The applicant will provide a summary of the meeting at the public hearing.

8. **Relevant Zoning History:** The subject property was rezoned to “PUD” on April 20, 1998, at which time a general “PUD” Conceptual Plan was adopted. It has since been amended six (6) times. The most recent amendment was approved by City Council on September 13, 2021, to allow development of a 2.09-acre parcel with a restaurant building with a drive-up window and a multiple-tenant commercial building.
9. **PlanDSM: Creating Our Tomorrow Plan Land Use Plan Designation:** Community Mixed Use.
10. **Applicable Regulations:** Taking into consideration the criteria set forth in Chapter 18B of the Iowa Code, the Commission reviews all proposals to amend zoning boundaries or regulations within the City of Des Moines. Such amendments must be in conformance with the comprehensive plan for the City and designed to meet the criteria in 414.3 of the Iowa Code. The Commission may make recommendations to the City Council on conditions to be made in addition to the existing regulations so long as the subject property owner agrees to them in writing. The recommendation of the Commission will be forwarded to the City Council.

The application, accompanying evidence and “PUD” Conceptual Plan shall be considered by the Plan and Zoning commission at a public hearing. The Commission shall review the conformity of the proposed development with the standards of the City Code and with recognized principles of civic design, land use planning, and landscape architecture. At the conclusion of the hearing, the Commission may vote to recommend either approval or disapproval of the amended “PUD” Conceptual Plan as submitted, or to recommend that the developer amend the plan or request to preserve the intent and purpose of this chapter to promote public health, safety, morals and general welfare. The recommendations of the Commission shall be referred to the City Council.

II. ADDITIONAL APPLICABLE INFORMATION

1. **Drainage/Grading:** Future construction must comply with the City’s storm water management, soil erosion protection and grading requirements, as approved by the City’s Permit and Development Center’s engineering staff during the PUD Development Plan (site plan) review process.
2. **Utilities:** The subject property has access to all necessary utilities. There are public storm and sanitary sewers that cross the site within easements. These sewers impact where the proposed building can be placed.

3. **Traffic/Connectivity:** The development would utilize the easterly north/south drive and the northern east/west drive for site access. The PUD Conceptual Plan provides cross-access through the property along the north and east perimeters to provide connectivity throughout the overall Eastgate Plaza PUD. See Section III of this report for recommended conditions of approval.
4. **Off-Street Parking:** The City's standard off-street parking requirement for an office building is 1 parking space per 400 square feet of building area. This would require a minimum of 19 parking spaces for a 7,145-square building. The submitted Conceptual Plan provides 31 parking spaces and 4 ADA parking spaces, for a total of 35 spaces. It also includes a note that states bicycle parking shall be provided at a rate of 1 space per 50,000 square feet of office space. This complies with the bicycle parking standards found in Chapter 135 of the Municipal Code.
5. **Landscaping:** The proposed PUD Conceptual Plan demonstrates that landscaping and plantings are to be provided throughout the site and along the perimeters. Staff recommends that landscaping to be provided in accordance with Chapter 135: Planning and Design Ordinance. See Section III of this report for recommended conditions of approval.
6. **Urban Design:** The proposed building would be sided with a mix of stucco with elastomeric finish (EIFS) and split-face concrete masonry units (CMU). Brick would be used as an accent material. EIFS is typically limited to the third floor or higher in commercial buildings (Section 135-4). Staff believes that the building should primarily be sided with materials that are classified as "Major Façade Materials" by Chapter 135 of the Municipal Code. In addition, the amount of transparency (windows) and the transmittance factor of the windows should be comparable to what is required by Chapter 135. To allow flexibility for the applicant and staff to work on design solutions during the development of the PUD Development Plan, staff recommends a general condition that points back to the standards found in Chapter 135.

Staff recommends provision of a note stating that all mechanical equipment, roof top units, condensers, meters, transformers or other such equipment shall be provided in accordance with Chapter 135: Planning and Design Ordinance.

7. **Lighting:** The proposed PUD Conceptual Plan demonstrates that a mixture of canopy, building-mounted, LED light bands, and pole lighting would be installed. Lighting should enhance safety and provide light levels appropriate to the visual task with minimal glare, light trespass and excess site brightness. Lighting should not be a nuisance or a hazard. Staff recommends provision of a note stating that all lighting shall be provided in accordance with Chapter 135: Planning and Design Ordinance.
8. **Trash Enclosure:** The proposed PUD Conceptual Plan indicates that the trash enclosure shall be made of 8-foot tall, CMU walls with a stucco skim coat painted to match the building, with steel gates. Staff recommends provision of a note stating that any refuse collection container will be within an enclosure constructed of masonry walls that match the primary building and steel gate with a pedestrian entrance.

9. **Signage:** The proposed PUD Conceptual Plan allows for multiple building-mounted signage. Staff recommends that any freestanding signage shall be a monument sign having a minimum 2-foot-tall masonry base to match the structure and shall not exceed 8 feet in height.

SUMMARY OF DISCUSSION

Emily Webb asked if any member of the public or commission desired to speak on the item. No one requested to speak.

COMMISSION ACTION:

Francis Boggus made a motion for approval of the proposed amendment to the Eastgate Plaza PUD Conceptual Plan, subject to the following modifications:
