STAFF RECOMMENDATION TO THE P&Z COMMISSION

Staff recommends approval of the proposed 2nd Amendment to the City Gateway PUD Conceptual Plan subject to the following revisions to the Plan:

1. A final PUD Conceptual Plan shall be submitted in accordance with all administrative review comments.
2. Landscaping for Phase 2 and 3 shall be consistent with Phase 1 and no less than the minimum requirements as per Chapter 135-7 of the City Code.
3. Any proposed full access drive entrances from Army Post Road in addition to the existing driveway shall be shared with the undeveloped City Gateway 2 "PUD" property to the west.
4. Should any driveway from Army Post Road be developed as full access it should be shown and developed with a westbound left turn-in lane constructed in the median and an eastbound right turn-in lane in the Right-of-Way west of the drive entrance, all at the expense of the developer and in accordance with SUDAS requirements.
5. The architectural design and building materials for Phase 3 of the PUD shall substantially match Phases 1 and 2 to the satisfaction of the Planning and Design Administrator.

STAFF REPORT TO THE PLANNING COMMISSION

I. GENERAL INFORMATION

1. **Purpose of Request:** The proposed 2nd amendment to the PUD Conceptual Plan would allow the expansion of the existing parking lot to the north of the existing warehouse building (Phase 1) on the subject property. A second parking lot is proposed to the south of the existing warehouse. Additional changes proposed include the reorientation of the future warehouse to the west (Phase 2), which moves the parking and docking area to the west. The provision of outdoor storage along the southern boundary of the site has been eliminated with the proposal of a future warehouse and associated parking spaces (Phase 3). A second full movement drive access from Army Post Road has been realigned and moved further west in the adjoining undeveloped parcel.
2. **Size of Site:** 39.95 acres. The proposed area consists of 2 large parcels.
3. **Existing Zoning (site):** Legacy "PUD" City Gateway Planned Unit Development District.
4. **Existing Land Use (site):** The subject site is partially developed. There is an existing 288,000 square-foot warehouse building with a paved parking lot to the north. The

undeveloped portion of the site is currently used for agricultural production. There is one full movement access to the property from Army Post Road. The extension of Gannett Avenue provides access to the site from the south off Southwest 42nd Street.

5. Adjacent Land Use and Zoning:

North – “P2”; Use is the Des Moines International Airport.

South – “ROW”; Use is Iowa Highway 5 interchange with Iowa Highway 28.

East – “EX”; Uses are the Des Moines Register headquarters; and Katecho/Surmasis medical technology product manufacturing and distribution.

West – “PUD”; Use is an undeveloped parcel.

- 6. General Neighborhood/Area Land Uses:** The subject property is located southwest of the Des Moines International Airport, northeast of the interchange of Iowa Highway 5 and Iowa Highway 28, and west of the Airport Business Park Phase II Planned Unit Development.
- 7. Applicable Recognized Neighborhood(s):** The subject area is not located within 250 feet of a recognized neighborhood association. All neighborhoods were notified of the public hearing by emailing of the Preliminary Agenda on August 18, 2023. Additionally, separate notifications of the hearing for this specific item were emailed on August 18, 2023 (20 days prior to the hearing) and August 28, 2023 (10 days prior to the hearing) to the primary titleholder on file with the Polk County Assessor for each property within 250 feet of the site. A Final Agenda was emailed to recognized neighborhoods on September 1, 2023.
- 8. Relevant Zoning History:** On September 27, 1999, by Ordinance No. 13,754, the City Council rezoned the subject property to “PUD” Planned Unit Development in accordance with the City Gateway PUD Conceptual Plan. This plan allows for principal uses and support commercial uses as permitted in the “PBP” Planned Business Park District regulations, with no limitation on the area permitted for support commercial uses.

On September 28, 2015, by Roll Call No. 15-1648, the City Council approved the first amendment to the City Gateway PUD Conceptual Plan to allow the development of the Property for light manufacturing of electrical components within office/production facilities and with outside storage areas, subject to the following conditions:

1. Any development and construction permits for the site are subject to prior approval and compliance with FAA airspace restrictions and necessary permitting for any crane equipment that would temporarily encroach into restricted airspace.
2. Any proposed full access drive entrances shall be reflected on the plan. Only the one drive entrance to Army Post Road may be allowed with full access.
3. Should any driveway from Army Post Road be developed as full access it should be shown and developed with a westbound left turn-in lane constructed in the median and an eastbound right turn-in lane in the Right-of-Way west of the drive entrance, all at the expense of the developer and in accordance with SUDAS requirements. It shall be no closer than 800 feet to Southwest 42nd Street.

4. Any driveway encroaching onto City owned property to the west shall be in accordance with a lease reviewed by the Des Moines Airport Authority or any acquisition which may occur in accordance with requirements by the Federal Aviation Administration.
5. Provide requirements for Building Design Standards, Prohibited Materials, and Colors as contained in the current approved City Gateway Plan.
6. Add a note that Phase 2 and any subsequent phases of the Plan shall necessitate a future PUD Conceptual Plan amendment review of the building elevations.
7. Add a note regarding Architectural Screening that states architectural screens shall be provided for outdoor mechanical equipment, refuse collection containers, and outdoor storage and other outdoor service areas. Required screening shall be integrated into the overall architecture of the building or the elements shall otherwise be architecturally screened from public view. Architectural screening and landscaping solutions for the proposed outdoor storage area shall be designed to the satisfaction of the Planning Administrator as part of Development Plan review.
8. Flood hazard area and Good Neighbor Task Force references should be removed from the plan.

9. PlanDSM: Creating Our Tomorrow Plan Land Use Plan Designation: Business Park.

- 10. Applicable Regulations:** Taking into consideration the criteria set forth in Chapter 18B of the Iowa Code, the Commission reviews all proposals to amend zoning boundaries or regulations within the City of Des Moines. Such amendments must be in conformance with the comprehensive plan for the City and designed to meet the criteria in 414.3 of the Iowa Code. The Commission may make recommendations to the City Council on conditions to be made in addition to the existing regulations so long as the subject property owner agrees to them in writing. The recommendation of the Commission will be forwarded to the City Council.

The application, accompanying evidence and "PUD" Conceptual Plan shall be considered by the Plan and Zoning commission at a public hearing. The Commission shall review the conformity of the proposed development with the standards of the City Code and with recognized principles of civic design, land use planning, and landscape architecture. At the conclusion of the hearing, the Commission may vote to recommend either approval or disapproval of the amended "PUD" Conceptual Plan as submitted, or to recommend that the developer amend the plan or request to preserve the intent and purpose of this chapter to promote public health, safety, morals and general welfare. The recommendations of the Commission shall be referred to the City Council.

II. ADDITIONAL APPLICABLE INFORMATION

1. **Drainage/Grading/Stormwater:** A majority of the existing site drains generally to the north with a minor southern portion of the property draining south. There is a public storm sewer intake at the north edge of the property that takes water under Army Post Road and releases it to an overland drainage way onto the airport property. There is storm water detention along the northern portion of the site.

The existing site has an approved Stormwater Management Plan. So long as the proposed improvements (impervious area) are less than or equal to what was planned for as future improvements in the SWMP, this project should not need additional stormwater management.

Any grading of the site is subject to issuance of a grading permit from the Permit and Development Center as well as review of a Storm Water Pollution Prevention Plan by the Iowa DNR.

2. **Landscaping and Buffering:** The Conceptual Plan Amendment references a landscaping standard requiring that landscaping shall be provided in accordance with "C-2" requirements of the retired Zoning Code and Landscaping Policy as part of a PUD Development Plan. The plan references bulk standards as required by the "M-1" District regulations of the retired Zoning Code, which are predominately minimum 25-foot setbacks from property lines for buildings and a 75-foot of maximum height allowance.

The existing landscaping within the developed area (Phase 1) of the PUD has set a stage for the landscaping standards within the subject property. Future phases of development should be consistent with the landscaping developed in Phase 1 and no less than the minimum requirements as per Chapter 135-7 of the City Code.

3. **Traffic/Street System:** The proposed amendment to the PUD Conceptual Plan indicates a second full movement access from Army Post Road. There is an existing full movement driveway that provides access into the site from Army Post Road. The First Amendment to the PUD was approved subject to the condition that only one drive entrance from Army Post may be allowed with full access. Staff believes that while a full drive access to this development is not necessary, the proposed second driveway can provide shared access to the undeveloped parcel to the west, if and when it develops as well as the warehouse expansion in Phase 2. Traffic and Transportation staff have indicated that a second full movement driveway can be considered if the applicant can ensure that the proposed second full movement driveway will provide shared access to the parcel to the west in addition to the proposed warehouse in Phase 2.
4. **Urban Design:** The currently approved PUD Conceptual Plan for City Gateway states that all buildings shall be designed to ensure their individual attractiveness, compatibility with each other and with the business park environment. Buildings within City Gateway shall be constructed of permanent materials such as brick, architectural pre-cast panels, tilt-up concrete panels, split-faced concrete block, stone, glass, with EIFS/stucco as a decorative architectural feature. Material innovation and progressive structural design are encouraged when permanency and structural building strength are a result." The current plan also prohibits the following exterior materials: plywood, composite siding, composite panels (metal-faced plywood or woodcore), pre-engineered metal with exposed fasteners, metal siding, all plastics (except signs), non-decorative concrete block except where not visible from public views, and EIFS/stucco except for decorative architectural features. Staff believes that these design guidelines are still valid and have been successfully incorporated into the Phase 1 building. These standards should be maintained and carried over to future phases 2 and 3.

SUMMARY OF DISCUSSION

Abby Chungath advised item #8 could be moved to the consent agenda. No members of the public or Commission wished to speak.

Carolyn Jension made a motion to move item #8 to the consent agenda.

COMMISSION ACTION:

Carolyn Jenison made a motion for approval of the proposed 2nd Amendment to the City Gateway PUD Conceptual Plan subject to the following revisions to the Plan:

1. A final PUD Conceptual Plan shall be submitted in accordance with all administrative review comments.
2. Landscaping for Phase 2 and 3 shall be consistent with Phase 1 and no less than the minimum requirements as per Chapter 135-7 of the City Code.

CITY GATEWAY PUD AMENDMENT #2 – NEIGHBORHOOD MEETING MINUTES
Monday, August 28TH, 2023

APPENDIX

Civil Engineering Consultants, Inc.

August 18, 2023

To: Surrounding Property Owners of:
4240 ARMY POST ROAD

RE: NEIGHBORHOOD MEETING

Dear Property Owner:

This letter is notice of a neighborhood meeting to be held on Monday, August 28th at 6:00 pm at the Electro Management Corporation Conference Room (4240 Army Post Road, Des Moines, IA 50321).

This informational meeting is being held as a courtesy to the neighborhood. No formal action will be taken. If you know of any interested parties who have not received a copy of this letter, we would appreciate it if you would inform them of the time, date and place of the Neighborhood Meeting. Your comments and suggestions for the project will be appreciated.

The property owner is Electro Management Corp (Britt Baker, CEO). The property is amending the Planned Unit Development zoning. The owner is pursuing additional parking, revising the proposed layout of a future building, and proposing an access to Army Post Road. A Public Hearing to review the PUD Amendment request will be held before the City of Des Moines Planning & Zoning Commission on September 7, 2023 at 6:00 p.m. at 1551 East Martin Luther King, Jr. Parkway, 2nd Floor MCS Board Room.

Further information about the project can be obtained by calling:
Paul Clausen, Civil Engineering Consultants, Inc. at (515) 276-4884 ext. 212 or
Frank Dunn-Young, City Planner, City of Des Moines at (515) 283-4749.

If you cannot attend the neighborhood meeting on September 7, 2023 and have comments you would like to share, please send them via e-mail to CLAUSEN@CECLAC.COM or by U.S. Postal Service to Paul Clausen, Civil Engineering Consultants, Inc., 2400 86th Street, Unit 12, Des Moines, Iowa, 50322.

Sincerely,

CIVIL ENGINEERING CONSULTANTS, INC.

Paul Clausen, PE, LSIT
Engineer
Board Member
