The applicant can provide a summary of the neighborhood meeting at the public hearing.

8. **Relevant Zoning History:** None.
9. **PlanDSM: Creating Our Tomorrow Plan Land Use Plan Designation:** Low Density Residential.
10. **Applicable Regulations:** Taking into consideration the criteria set forth in Chapter 18B of the Iowa Code, the Commission reviews all proposals to amend zoning boundaries or regulations within the City of Des Moines. Such amendments must be

in conformance with the comprehensive plan for the City and designed to meet the criteria in 414.3 of the Iowa Code. The Commission may make recommendations to the City Council on conditions to be made in addition to the existing regulations so long as the subject property owner agrees to them in writing. The recommendation of the Commission will be forwarded to the City Council.

II. ADDITIONAL APPLICABLE INFORMATION

1. **PlanDSM: Creating Our Tomorrow:** The applicant is requesting that the future land use designation of the property be amended from “Low Density Residential” within a Neighborhood Node to “Business Park” within a Neighborhood Node. PlanDSM describes these designations as follows:

Low Density Residential: Areas developed with primarily single family and two family residential units with up to 6 dwelling units per net acre.

Business Park: Accommodates light industrial, office and employment uses along with limited complementary retail uses. Industrial uses in this category would produce little or no noise, odor, vibration, glare, or other objectionable influences, and would have little or no adverse effect on surrounding properties.

Neighborhood Node: These nodes are the smallest in size and offer services that provide for basic daily needs of the local population in the surrounding neighborhood. May include restaurants, shops and smaller-scale businesses. Residential development including low-medium and medium densities may occur.

The subject property is currently zoned “N1a” Neighborhood Mix District which the Zoning Ordinance describes as, “intended for large lots for mostly single-household residential houses with a more flexible building form pursuant to House A building type in section 135-2.13 of this code.”

The applicant is proposing to rezone the property to “EX” Mixed-Use District which the Zoning Ordinance describes as, “intended for locations and corridors with a mix of light industrial and heavier commercial uses, accommodating higher levels of vehicular traffic than MX districts and a predominance of mid-scale employment uses, such as office, low intensity industrial, and warehouse spaces associated with offices.” The applicant is additionally requesting the rezoning of the subject properties to a Limited “EX” Mixed-Use District where no individual storage unit shall be less than 600 square feet.

2. **Planning and Design Ordinance:** Any development must comply with all applicable site plan and design regulations of the Planning and Design Ordinance. Should the rezoning be approved, the applicant would be required to prepare a Site Plan and building elevations for review and approval before the property can be occupied by the proposed use.

Once the applicant submits a formal Site Plan, staff would conduct a full review. A quick analysis of the rezoning concept illustration provided by the applicant has identified a few elements that do not conform to Chapter 135 and may require Type 2

Design Alternatives from the Plan and Zoning Commission. These may include, but are not limited to, the following possible Design Alternatives:

- reduction of transparency requirements along Hart Avenue;
- reduction of building entrances along Hart Avenue;
- waiver of building facade materials; and,
- reduction of the minimum required occupied space along the primary frontage.
