Attention: Brad Brockman

Dear Brad Brockman:

Enclosed is our streetlight proposal for East Douglas Ave; WMIS: 2921331

This proposal includes the installation of streetlights on:

East Douglas Avenue

We Propose To:

Install:	34	150W	LED streetlights on galvanized direct - embed poles
----------	-----------	------	---

The estimated cost of this installation is **\$255,147.96**. Payment may be withheld until MidAmerican construction has been completed. Since the estimated cost of construction is over \$100,000.00, the City is required by tariff to pay actual costs upon completion of the work, which could result in additional charges to the City, or lesser charges than what has been estimated.

These lights will be installed on steel poles and served by underground conductors, but will be billed to the City at the wood pole, overhead rate because the City has agreed to pay the streetlight facilities charge.

MidAmerican Energy Company's streetlight proposal is based on the approved street light analysis provided by the City. MidAmerican Energy Company will install the lights based on the staked locations provided in the field by the City.

If this proposal meets with your approval, please sign and return one (1) copy of this letter and one (1) copy of the print.

Upon receipt of your approval and verification of site readiness, we will prepare work instructions and schedule the installation of these lights. This proposal is valid for 90 days and if MidAmerican Energy Company construction has not commenced within 12 months it may be voided.

If you have any questions, please contact me at (515) 252-6730.

Sincerely,
MidAmerican Energy Company
