**APPROVING AGREEMENT WITH IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY FOR APPLICATION OF TECHNOLOGY BASED SOLUTIONS TO ASSESS PROPERTY CONDITIONS**

WHEREAS, the Translational AI Center at ISU (“ISU”) has a unique skill set and expertise to develop artificial intelligence (“AI”) technology, and ISU desires to explore such technology within the context of community planning; and

WHEREAS, the City and ISU wish to collaborate to create to design, deploy and evaluate automated techniques, specifically AI approaches, to score the condition of residential property parcels (“Project”) related to code enforcement, including automated methods for evaluating a residential property involving computer algorithms to analyze and extract relevant information from street view images, all of which will be based on existing City-owned data; and

WHEREAS, no funding will be exchanged by either party; and

WHEREAS, the Project is expected to start on April 1, 2023, and be completed by August 15, 2023; and

WHEREAS, the Project will serve a public purpose of exploring the development of a more efficient, objective, and cost-effective way to assess a residential property’s external condition with the hope that this project will lead to an cost-efficient approach to periodic property condition assessment that will direct neighborhood revitalization policy and plans, and strategize City investment.
